5th November 2018

Dear Parents

As part of our Science learning based around the circulatory system this term, we have been given the opportunity to investigate the anatomy of the heart and lungs.

On the afternoon of Thursday 8th November, we will be dissecting the heart and lungs of a pig during our Science lesson.

If you do not want your child to take part in this Science investigation, please ensure you speak to your child's teacher before Thursday.

Many thanks

Year 6 Team

Oxfordshire Primary Education Network

Working together to provide an outstanding education for all our children
