Dear Parents / Carers

Additional Maths Support in Year 6

You may be aware that for the past few years we have been able to offer some additional support to a small group of children in Year 6 to enhance their progress in English or Maths. This was originally a government funded initiative which has now ended in its initial form; as we feel that it had a positive impact in children's self-esteem, confidence and performance, we have decided to allocate some of our funding to deliver a similar programme of support for some of our current Year 6 pupils during the course of the year.

This support will take place outside of lesson times, before school, and will be led by one of our teachers. We will identify areas of study that would benefit from this close attention and will ensure that the session best supports the children's learning.

In order to schedule these sessions around several teachers' work commitments, it will not be possible to change the allocated sessions. We have worked out a schedule and would be able to offer support in Maths on Tuesdays at 8.00am on the following dates:

13th November, 20th November, 27th November, 4th December, 11th December

We are not able to offer refunds on previously booked clubs and activities if you wish to take advantage of the additional maths sessions.

Please log on to School Gateway to let us know whether or not your child wishes to take part every week.

Kind regards,

Jenny Sheppard
