

Home Learning Year 3

Term 2: Bronze to Iron Age

This is the home learning activity sheet for Term 2. We would like your child to pick at least one activity from the categories below and they must complete a minimum of three pieces of work over Term 1. Or, why not surprise us with your own creative project related to our topic? We will celebrate the children's achievements in class throughout the term.

Please hand in all your work by Wednesday December 19th.

ESSENTIAL

Reading every day, including weekends for **10-15** minutes, preferably with an adult.

Spelling practice **at least** four times per week for 5-10 minutes.

Times table practise each week at home.

Please note: *Further English and Maths homework may be set, when additional support or consolidation is required. This will not be a weekly expectation.*

Choose one writing activity

Write your own story about living in the Iron Age – Write your own adventure story. Think about where you could go and what adventure you can have.

Write a letter or postcard – Write a letter or postcard to someone and post it. You could tell them about your life or ask them about something. If you get a reply, you can show the class.

Write a shape poem – using what you learn in class create a shape poem about Christmas.

Choose one of these art activities

Make your own beaker – In the Bronze Age, the Beaker people were famous for their pots so try making your own using clay, playdough, plasticine or anything else you can find.

Create your own Celtic artwork – Try copying or making your own Celtic patterns.

Learn or make up a new playground game – Write down the rules and teach the rest of the class how to play the game (Make sure it is a safe game and doesn't break any of the school rules).

Choose one research activity

Visit a library or museum to find out about the past – Visit places like the Bristol Museum, M-shed or Leigh Woods, or find non-fiction books in your local library and write down or tell the class about something interesting you found out.

Use a search engine (SafeSearch) to find out about different styles of houses in the past – Use what you have learnt in Computing to search for the correct things. What happens when you change the words you use for your search?

Find out about a religious festival eg Christmas, Divali, Hannukah – Interview people who celebrate the festival; find information in books and on the internet; prepare a speech to the class or a poster to share what you have learnt.
