

FRIENDS NOTICEBOARD

We have 2 fantastic Movies and Munchies events coming up very soon....

Thursday 22nd November – The Greatest Showman

Tuesday 4th December – Peter Rabbit

£5 per child including a sandwich, drink and popcorn. This is only available for children in Year 1 to Year 6.

Please take your money and completed forms to reception as soon as you can to avoid disappointment. A great opportunity to get a couple of extra hours to start, or maybe even complete your Christmas shopping!!!

The Friends Christmas Bazaar....

Plans are well under way for making this a fantastic event. Having not been able to provide this last year due to having very few Friends Members, we are excited to take on this event with a fabulous new team supporting the organisation. This is alongside the long standing members of the committee who are leading us in the right direction to ensure we keep all your favourite festive fun things.

There will be lots of games, crafts, refreshments, cakes, and of course Father Christmas will make an appearance. Children can purchase tickets to visit him in his Grotto.

In order for us to prepare for this we are asking for the following donations:

- Hamper and Tombola items such as; wine, biscuits, crackers, chocolates, any non-perishable items, as well as smellies or items to create some pamper hampers.
- We would also love to have any pre loved teddies who have had a bath and are ready for a new home.

All items can be dropped into the school office and would be very gratefully received. Many thanks as always for your continued support.

From the Friends Team

Please like our Facebook Page: [FriendsofCarolineHaslettPrimarySchool](#) for updates and information on future events.

Sports News

Our Boys Football Team played two matches at Woughton on the Green on Wednesday this week.

It wasn't the team's strongest performance, losing 5-0 to Monkston and 1-0 to Abbeys. Miss Hilton and the team discussed how improvements can be made and we will hopefully be able to report better results after their next matches.

Thank you letter

Please see below a lovely thank you letter which we received from Dave and John of the Three Bridges Forum.

How can I make a standard thank you letter seem anything but?

Of course it was a personal connection with Caroline and a retired Sussex teacher interest in how a school functions off piste that drove us up the M1 on Tuesday.

Everything we experienced was so heart warming, from your caretaker taking pity on us to unload our kit before school, the enthusiasm of Frances Green and her Y3 class and the friendly commitment of everyone we met on the day. It was especially kind of you to take the time to give us a tour of the school and some momentos. Even though Paul was elsewhere doing even more good for the children of MK please convey our admiration for all the Caroline Haslett school is achieving.

I hear a voice from the past...it's Caroline herself saying "I hope you all enjoyed learning something about me you may not have known. As a reward I want you all to have a week's holiday starting tomorrow...you really deserve it."

Many thanks for allowing us to visit. We will let you know how the project develops and may well ask if there is any input the school may wish to make.

Sincerely...Dave and Johnfor Three Bridges Forum

Children's Orthodontist Service

NHS England wants to hear your views about how you feel child orthodontic services should be delivered in the future. Orthodontic treatment, which often involves fitting braces, is used to improve the appearance and alignment of crooked, protruding or crowded teeth and correct problems with the bite of the teeth.

They would like to encourage parents of primary age children in the Midlands to complete this online survey, which asks for your views about: preferred appointment times; whether they would prefer their child's orthodontist to be based near their home; school or place of work; how important it is that their child's orthodontist is accessible using public transport; acceptable waiting times for assessment and treatment. Parents whose children are already receiving treatment are also asked to rate the quality of the service and share any suggestions they may have about how it could be improved.

An NHS spokesperson said: "We are responsible for planning, buying and monitoring NHS orthodontic services to make sure they meet the needs of local people. We will soon be arranging new contracts to provide these services in the future and we want to hear the people's views about what the services should look like.

"Please take a few minutes to complete the online survey so your views can be taken into account."

You can complete the survey here: <https://www.surveymonkey.co.uk/r/NHSE-CMOS-HWLAS> The closing date is Sunday 25 November 2018. By completing this survey, you are consenting to the information being shared with NHS England Midlands & East (Central Midlands). Thank you.
