## Glossary

### Progress score

In a small number of cases, pupils can have extremely negative progress scores that disproportionately affect a school's overall progress score. To reduce the impact of these extreme scores, we set a limit on how negative a pupil's progress score can be when calculating the school average. This will normally apply to 1 or 2 pupils per school, if any.

Where a pupil's score is more negative than this minimum value, an adjusted score will replace the pupil's original progress score for the purpose of calculating a school's overall progress average. For further information, see the technical guidance.

<https://www.gov.uk/government/publications/primary-school-accountability>

### Results over time for Progress in reading, writing and maths

We introduced a change in methodology for calculating progress scores. This means 2018 scores are not directly comparable with 2016 and 2017 scores respectively.

### Male

The national comparator used in this row is the national average for all male pupils.

### Female

The national comparator used in this row is the national average for all female pupils.

### Disadvantaged

Pupils may be defined as disadvantaged if:

- they are known to have been eligible for free school meals in the past 6 years, or
- they are recorded as having been looked after for at least one day, or
- they are recorded as having been adopted from care

The national comparator used in this row is the national average for all non-disadvantaged children.

### Other

Non-disadvantaged children.

The national comparator used in this row is the national average for all non-disadvantaged children.

### Ever 6 FSM

Pupils known to have been eligible for free school meals in any of the previous 6 academic years, as well as those first known to be eligible in January of the year this data covers.

The national comparator used in this row is the national average for children who **are not eligible** for free school meals. Exceptions to this include the school level absence and basic characteristics reports, where the national comparator is the national average for children **who are eligible** for free school meals.

### Non-Ever 6 FSM

Pupils who were not eligible for free school meals in any of the previous 6 academic years.

### Children looked after

This means children who have been in the care of local authorities for at least one day or who have been adopted from care.

The national comparator used in this row is the national average for all children who are not looked after.

### SEN with statement or EHC plan

This refers to pupils with Special Educational Needs (SEN) who have learning difficulties or disabilities that make it harder for them to learn than most children of the same age. There's a formal assessment to decide if a pupil needs a statement of SEN or an education, health and care (EHC) plan.

The school's performance for pupils with SEN with statement or EHC plan is compared with the national average for **all pupils**. Exceptions to this include the school level absence and basic characteristics reports, where the national comparator is the national average for children **with a statement or EHC plan**.

### SEN support

This is when the school gives children extra or different help from its usual curriculum. Outside specialists may advise or support the class teacher and SEN coordinator.

The national comparator used in this row is the national average for all pupils.

### **No SEN**

Pupils with no Special Educational Needs.

The national comparator used in this row is the national average for all pupils with no SEN.

### **English first language**

This refers to children who were initially exposed to English during early development and continue to be exposed to English in the home or in the community.

The national comparator used in this row is the national average for all pupils.

### **English additional language**

This refers to children who were initially exposed to a non-English language during early development and continue to be exposed to this language in the home or in the community.

The national comparator used in this row is the national average for all pupils.

### **Unclassified**

This refers to pupils where the census return showed them as unclassified for English as a first language.

The national comparator used in this row is the national average for all pupils.

## **Key stage 2**

### **Change in methodology for writing teacher assessment**

Attainment in reading, writing and maths (combined) is not directly comparable to previous years because of changes to the [2017/18 writing teacher assessment frameworks](https://www.gov.uk/government/publications/teacher-assessment-frameworks-at-the-end-of-key-stage-2).

<https://www.gov.uk/government/publications/teacher-assessment-frameworks-at-the-end-of-key-stage-2>

Changes to the [2017/18 writing teacher assessment frameworks](https://www.gov.uk/government/publications/teacher-assessment-frameworks-at-the-end-of-key-stage-2) mean results in 2018 are not directly comparable to 2016 and 2017, which used the previous interim frameworks.

## Three year averages

Three year averages are an important way to show how schools are performing across time, smoothing out small variations in a single year, for example, due to a small cohort size. To take into account varying pupil numbers each year, the three-year average is weighted by the size of the school's cohort in each year.

## Prior attainment of disadvantaged pupils - 3 year trends

Changes to eligibility criteria for Free School Meals (FSM) under Universal Credit has implications for schools' disadvantaged pupil data (for further information see the [government response to eligibility for free school meals and the early years pupil premium under Universal Credit consultation](#)). Schools' disadvantaged cohorts vary year on year and it is important to consider prior attainment when comparing performance. Where a school's disadvantaged cohort's attainment has increased or decreased significantly between years, this may partly be explained by changes in the size and make-up of the cohort. Furthermore, please treat disadvantaged pupil data with caution when comparing school performance nationally, until Universal Credit roll-out is completed.
