

BUILDING A BRIDGE

We're here today to change the course of history,
To build a better future for your families,
We'll move you on a hundred years,
Your ancient ways will disappear.

A bridge across the river bringing unity,
Will help create a civilized community.
We're gonna make it good and strong,
To help you all to get along!

Building a bridge...., building a bridge.....

Our Western way of doing things is what you need.
A better way of living will be guaranteed.
We only use the very best,
Your neighbours will be so impressed.

Building a bridge...., building a bridge.....

The latest in design and new technology,
Will open up your eyes, and bring you up to speed.
We're bringing you a touch of class,
Our quality is unsurpassed!

Building a bridge...., building a bridge.....

INSTRUMENTAL (MRS HIRST)

Building a bridge, building a bridge.

We're here today to change the course of history,
To build a better future for your families,
We'll move you on a hundred years,
Your ancient ways will disappear.

Building a bridge...., building a bridge....,
Building a bridge...., building a bridge....,
(repeat to fade)

(Year 5/6 echoes building...building)
