The Jungle book -A retelling

It was 7 o'clock on a warm evening in the Seonee Hills and then father wolf woke up scratches him self-stretches and then absquatulated quickly and then went to hunt. He sees a white bushy tail hidden behind the bushes father wolf went into rusty, dirty cave and gave the babies blessing.

Father wolf said "come into the cave and have a look at this but the tasty food was not there in the dirty cave, he was not happy to see tabqui, but he was very polite. Tabaqui said "I am a very poor Peron and I am not important for me. For me I will just have a bone that's what I will eat but no meat. We are Jackals we eat food when we find it but first you need to find the animal and then kill it. "We don't look for the best food" said father wolf.

Father wolf said "that is a bad thing to do" He was very angry. By the law we cannot change where we hunt but first we have to tell someone about it. He will be very shy of the animal. And me the very strong-powerful wolf I need to hunt for me and also mother wolf "And just then I heard a sound in the bush in every direction I think I am surrounded? I think they are tigers.

Everyone think that the man is very weak and not strong at all and he is a very poor animal and it is not fair not to touch him. (The man's eater gets sick and also lose all their teeth).

He did not catch what he wanted to get and there he hear noise he is surrounded by animals.
