

**St Joseph's Catholic Primary School**  
Sports Premium 2017-2018

**St Joseph's Catholic Primary School - awarded £15,748 for School Year 2017-18**

	<b>Cost</b>	<b>Impact/ Effect</b>	<b>Sustainability</b>	<b>Review of plan</b>
Specialist School Sports Trips	Estimated: £6000 Actual: £3,480	Creates opportunities for all children to access physically active experiences  Gives a broad range of new sporting/ active experiences for all children  Introduces non-traditional activities to promote children being more active  Engaging with least active children by sparking an interest in an alternative physical activity	To introduce and facilitate participation in new, original and non-traditional physical activities which children may wish to pursue in the future  To build confidence and a love of sport outside the PE curriculum	The majority of children attended a Specialist School Sports Trip. Positive verbal feedback from coaches and sports specialists in relation to the children's response to the activities were well received. Letters from parents and interviews/questionnaires with children highlighted the success of these opportunities to experience a sporting activity with some children now being committed to active involvement in a physical experience they had not been exposed to before Some children were identified by staff, parents and coaches of a skill in a child not recognised before that has now led to those children taking part in that physical activity outside school A promotion of mental health and well being through enjoyment, physicality, team building and organisation
Contribution towards the development of a play area	Estimated: £2500 Actual: £6400 (additional funds allocated from savings made in Sports	Daily opportunities for children to access this area giving them more space to take part in physical activities	A permanent area that can be used daily to promote physical activity	This project has been completed and is used every day.

	trips allocation and specialist coaching)			
Travel	£1400	Encourages competitive sport within school by allowing taking the children to a range of different competitions	Increased percentage of children who can access the school's competitive sports programme.  Enables competitions to be all inclusive with no reliance on parents/ carers to transport.	Covering the cost of transport enabled more children to attend competitions. It provided the opportunity for children to develop individually as well as part of a team.
Specialist Coaching from SiS during lunchtime period	Estimated: £5,000  Actual: £3700	Allows 2 slots of 30 minutes extra activity each day Allows a broad range of activities to be accessed by children Introduces non-traditional activities that promote children being more active. Increased skill, knowledge and confidence Encourages whole school improvement by having specialist coaching beyond Physical Education lessons	Sustainable as this coaching has become a fixture and extension of our whole school PE program.	SiS lunchtime games are a great success with the majority of children participating. Interviews with children and parents indicate a desire to continue with these sessions.
Equipment and Sports kits	£350	Allows opportunities for children to play and compete in a range of physical activities  Allows children to represent the School.	Sustainable as we also use Sainsbury's School Games Vouchers to renew equipment.	More children are active and engaged in physical activity at lunchtime.  In addition, following the identification of the popularity of 4-Square, and a request from the children additional playground markings were laid, to their delight! Each square is used every minute of every break time!

Competitions Trafford School Partnership Programme: Intra (Level 1)	£1500	Engages more children in regular physical activity Gives a broader experience of a range of sports and activities (open to all children). Increases participation in competitive sports.	By introducing children to new, original and non-traditional activities  Offers competitive activities to children that may not have previously been engaged in joining a school team.	The children participated in a wide variety of sporting competitions throughout the year.
CPD	Trafford School Sports Partnership CPD Programme (accessible for free to all staff members)	Increased confidence, knowledge and skills of all staff in teaching PE and sport.	All staff acquire permanent skills, confidence and knowledge to improve the School's Sport and Physical Education.	The sports team attended the CPD programmes provided, and disseminated relevant training to the wider staff team.
<b>Total Spend</b>	Estimated: £ 16,750  Actual: £16,830
