

HOMEWORK CLUB

Homework Club is available to all children in Years 3-6 and is designed to allow the children to do the homework which has been set by the class teacher. TA's are available to assist the children with their class homework.

We have noticed that some children have been turning up to Homework Club with no homework to complete. This means that the staff have to spend time finding work for the children to do, rather than being able to spend time assisting the children who require help with the set homework.

When signing the children up to Homework Club, we would ask you to complete the sign up list with details of the homework which your child will be doing. If the children have not been allocated homework, they should not be attending.

Thank you for your co-operation.
