## PHONICS WORKSHOP FEEDBACK

*I found the training very useful in equipping me with the knowledge to support me with supporting my son.*

*Very useful talk, as I have tried phonics at home with my daughter but this has really clarified how to help apply it. I will definitely be applying all I have learnt from this great workshop. Thank you!*

*It is good to get it explained and learn what is expected of our children, especially as it is different to the way we were taught.*

*Very insightful workshop with helpful tips on helping our child and understanding phonics and the ways to use them.*

*Great workshop, confident that the learning I do at home with my children is at the same level they do at school each day. Useful information in the booklets provided too! Thank you!*

*Very helpful, gave me (as a parent) a greater understanding of phonics.*

*Very useful information which will help us progress with reading.*

*It's good to see how our children are taught and some information on how we can help them learn is helpful.*
