

# YEAR GROUP NEWS

23<sup>rd</sup> November 2018

## Reception

This week the children have continued to build on their learning about sentences, writing their own animal sentences to make a class book. The sentences have used finger spaces and we have re-read each sentence to make sure it makes sense.

In maths the children have found totals by combining two groups of objects together. We have started to use tens frames to sort the objects into rows to make them easier to count.

In art we have continued to improve our self-portraits by looking closely at the shape of our eyes before adding them to our work.

Thank you for your continued support with reading at home; we now have several children in Reception who have received their certificates in assembly for achieving 50 reads at home. Your support in this area makes a huge difference to the children's progress in this area, allowing them to practise the skills learnt in school.

## YEAR 1

This week we have been learning how to create our own 3d natural sculpture. We have learnt how to mould the clay to make our chosen shapes. To start off with we designed our hedgehogs and we thought about how we would use the equipment. At home this week you could try designing and making your own woodland creature. You could use Playdough to create your own sculpture.

## YEAR 2

This week we sent out the letters about our Christmas production. Please send in the costume parts with names on, in a named bag.

Year 2 play a big part in this with all the speaking and small group/solo singing parts. Therefore, it's vitally important that they come back for the evening performance on the Tuesday evening (even if you aren't watching it). Please bring them back to school at 5:30pm.

Thanks in advance for your support.
