## West Exmoor Federation Using and Participating in Social Media Policy

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

The federation recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and pupils are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by the federation, its staff, parents, carers and children.

This policy is subject to the federation's Codes of Conduct and Acceptable Use Agreements.

### **This policy:**

- Applies to all staff and to all online communications which directly or indirectly, represent the federation.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education
- Defines the monitoring of public social media activity pertaining to the federation

The federation respects privacy and understands that staff and pupils may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the federation's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a federation account or using the federation name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the federation or impacts on the federation, it must be made clear that the member of staff is not communicating on behalf of the federation with an appropriate disclaimer. Such personal communications are within the scope of this policy. Personal communications which do not refer to or impact upon the federation are outside the scope of this policy.

Digital communications with pupils are also considered. Staff may use social media to communicate with learners via a federation social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.

Anyone wishing to create such an account must present a business case to the Federation Leadership Team which covers the following points:-

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the federation has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the federation, including volunteers or parents.

### **Monitoring**

Federation accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a federation social media account.

### **Behaviour**

- The federation requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.

- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. Federation social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the federation.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to federation activity.

- The use of social media by staff while at work may be monitored, in line with federation policies. The federation permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The federation will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the federation will deal with the matter internally. Where conduct is considered illegal, the federation will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

### **Legal considerations**

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.

discuss the issues in person. If necessary, refer parents to the federation's complaints procedures.

### **Monitoring posts about the federation**

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the federation.
- The federation should effectively respond to social media comments made by others according to a defined policy or process.
