

21st December 2018

Dear Parent/Carer

Praise from HMI visit to Grange Primary School

We were delighted to receive such a positive HMI report following the Monitoring Inspection Visit held at Grange Primary on 22nd November 2018.

The published report states “you have continued to drive school improvement with determination, ambition and clarity” which is a testament to the hard work and commitment provided by the team of staff at Grange Primary. The report continues “teachers ensure that learning is purposeful, well organised and appropriated resourced. Consequently, pupils concentrate, persevere and celebrate their success”.

The report recognises that the school, “senior leaders, governors and recently appointed interim multi-academy trust are taking effective action ... in order for the school to become good”.

Grange Primary is first and foremost a community school and whilst it has previously faced challenges, we now know that this latest HMI report will make the community proud of the school and its achievement to date.

You can read the full HMI report on the schools’ website.

I would like to take this opportunity to thank all the staff at Grange Primary for their hard work, commitment and effort.

Yours sincerely

David Brown
Chief Executive
Shrewsbury Academies Trust
