

Who first lived in Britain?

Dear Parents and Year 3

This is our topic for this half term. Please use it to help your own research, and I encourage you to bring things into school to improve your learning. Our Christian value for this half term is **hope**.

In English

We will practise saying our sentences, making them as interesting as we can before writing them down. We will be writing and performing our own play scripts.

As readers

We will work on our understanding of what we are reading, clarifying our vocabulary and answering questions.

We will be swimming every Monday afternoon, so remember your costumes!

As mathematicians

We will increase our understanding of place value in numbers, and use this to add and subtract.

In RE

We will be looking at the celebration of Harvest. We will also start to look at the different ways God communicates with us.

As historians

We will be using different pieces of evidence to find out about how people lived in the stone age.

As programmers

We will be using computers to make our own animation by instructing our characters.

As musicians

We will create music that resembles stormy weather. We will explore the effects that different instruments can have.

As citizens

We will understand how we can find hope in all situations.

As scientists

We will be exploring what light is, how it can be reflected, and how our shadows are formed.

As artists

We will experiment with different materials to create effects on our own cave paintings.
