

## Literacy

Presentations and role play

Writing for different purposes

Non-fiction texts

Creating and presenting a weather forecast

Weather poetry

Writing to persuade

Spelling and grammar

## Music

Listen to, appraise and perform weather based chants, related to the weather in either the UK or South Africa

Work collaboratively to sing and perform in a round

Explore tuned and untuned instruments

## Art / DT

Children will be introduced to famous artists and works of art

Make and use weather instruments

Use a range of materials to make a wind streamer

Use equipment to make sun catchers

Create collage using colour, pattern and shape

Design a flood resistant house

## ICT

Coding and programming

Using the internet safely to gather information

Use Google Earth to locate the UK

Use ICT as a way of producing art

# Extreme Weather

Spring 2019  
Year 2

## Science

Seasonal changes/Climate change

Everyday materials

Collect and analyse data and report the weather

Use observations to answer questions about the clouds and wind  
Perform simple tests to learn more about clouds

Perform simple tests with thermometers

## Maths

Counting, partitioning and calculating

Securing number facts, understanding shapes

Handling data and measures/time

Calculating, measuring and understanding shape.

Problem solving & reasoning

## PE

Rugby

Gymnastics

Multi Skills

## RE

BOOKS

THANKSGIVING

OPPORTUNITIES

## Geography

Gain a better understanding of the weather through observations, gathering data and performing simple tests.

Using compass points

Locating on a map the world's continents

Understand the significance of the equator in relation to climate

Talk about the seasonal weather patterns in the UK
