

ENGLISH

In Spring 1, the children will continue to learn about constructing and writing down sentences. We will be extending sentences using conjunctions such as and, so, and because.

We will be reading journey stories to learn the structure and the type of language used. We will also be discussing the stories that we read to ensure that children understand what they have read and can talk about it confidently. When writing our own journey story, we will be focusing on the build-up and problem. We will be writing about the journey of a migratory animal that we have learnt about in geography and science.

Music

We will continue to explore different sounds and practising singing in groups, using melodies with varying tempo and mood.

MATHS

In Spring 1 the children will be using addition and subtraction strategies to solve problems. They will also work with money, making totals, calculating change and solving practical problems involving money. They will also work on multiplication and division strategies, and use arrays to solve problems.

ART & DESIGN/D.T

The children will be learning about and exploring traditional Inuit art and use this as an inspiration for their own artwork.

Year 2—Spring 1

Frozen Planet

RE

In RE, the children will be learning about inspirational people and thinking about what makes a person a good role model.

SCIENCE

In Science, the children will be learning about the basic needs of animals, including humans. They will be learning about life process and using this information to identify which things are alive, dead and which have never been alive.

PE

In indoor PE, the children will explore changes in size, speed, level and dynamics and use gestures and travelling to show meeting and greeting.

In outdoor PE, we will develop fundamental movement skills. Extend agility, balance and coordination. Engage in co-operative physical activities.

GEOGRAPHY AND HISTORY

In Geography, we will explore the physical and human features of the Arctic. We will also explore how humans adapted to living in a particular climate. The children will use this learning to compare the Arctic with the UK.

ICT

In ICT, the children will be learning how to use animation to tell a story. The children will design a background and take multiple photos to animate movement.

CITIZENSHIP

The children will learn about how a community works. They will learn about people who help us in their own community.
