This is our Publication Scheme on information available under the Freedom of Information Act 2000. This publication scheme conforms to the model scheme for schools approved by the Information Commissioner.

*The governing body is responsible for maintenance of this scheme.*

## 1. Introduction: what a publication scheme is and why it has been developed

One of the aims of the Freedom of Information Act 2000 (which is referred to as FOIA in the rest of this document) is that public authorities, including all maintained schools, should be clear and proactive about the format in which the information will be made available.

To do this we must produce a publication scheme, setting out:

- the classes of information which we publish or intend to publish;
- the format in which the information will be made available and
- whether the information is available free of charge or on payment.

The scheme covers information already published and information that is to be published in the future. All information in our publication scheme is available in paper form obtainable from the schools. Some information, which we hold, may not be made public, for example personal information.

## 2. Aims

It is our aim to create a happy, caring and inclusive learning environment where all members of the school community have the opportunity to develop in confidence within a setting in which they feel valued and equipped for learning.'

We will do this by:

- fostering respect for one another, the school environment and the local community;
- having high expectations of both behaviour and achievement in all areas;
- striving to ensure equal opportunity for everyone, regardless of gender, ethnic and cultural backgrounds, beliefs and intellectual and physical ability;
- using a variety of teaching methods to deliver the Foundation Stage Curriculum and the National Curriculum;
- allowing learners to engage in a range of practical and meaningful tasks that address different learning styles;
- encouraging 'risk' taking, promoting independent learning thereby accepting some responsibility for their own progress;
- striving to develop positive home/school links and actively involving parents in the life and work of the school;
- liaising with local schools and the community as a whole;
- taking all opportunities to develop positively.

This publication scheme is a means of showing how we are pursuing these aims.

### 3. Categories of information published

The publication scheme guides you to information which we currently publish (or have recently published) or which we will publish in the future. This is split into categories of information known as 'classes'. These are contained in section 6 of this scheme.

The classes of information that we undertake to make available are organised into four broad topic areas:

- *School website* – information published such as the school prospectus, specific policies and curriculum information
- *Governors' Documents* – various governing body documents.
- *Pupils & Curriculum* – information about policies that relate to pupils and the school curriculum including references to pupil records and incident logs.
- *School Policies and other information related to the school* - information about policies that relate to the school in general.
