

Once upon a time...

Year1

## National Curriculum

As **Geographers** we will be looking at our world and the changes which go on within it.

As **Scientists** we will be looking at plants. We will have the chance to explore our local environment.

As **Design Technologists** we will be constructing buildings and bridges to link in with our Literacy.

As **Artists** we will be creating self portraits. We will also look at famous artists and the impact they have had on the art world.

As **Musicians** we will be learning about pulse, rhythm and pitch.

As **ICT** experts we will be exploring iPads and computers. Your child is also encouraged to use ICT at home on websites such as Espresso.

## Curriculum Drivers

### Spirituality & Morality

As spiritual learners we will discover the different religions in our local area and reflect upon the Christian values. We will focus on Creation and read and reflect on bible stories. We will learn about how to look after our planet and lead healthy, happy lives.

### Enterprise

Enquiry led learning is taking part daily in school where your child gets to drive the learning they would like to take place. We will be working as a team to research, make, build and innovate every half term.

### Diversity

In RE we will be studying the Christian and Muslim stories of Creation. We will celebrate our own and each other's diversity and recognise our own and each other's talents and strengths.

### Reminders:

- PE: Tuesdays (Indoor and Outdoor kits needed).
- Please make sure you sign your child's reading diary if the book needs changing.
- Keep using TTRockstars
