

As Geographers we will:

Locate the World's countries and name the continents and oceans. Investigate further the countries of North America, concentrating on their environmental regions, human and physical features, countries and major cities.

As Designers we will:

Investigate structures and how they are strengthened. Look at sculptures and landmarks across the world and why people are drawn to them.

As Citizens we will:

Investigate migration and the importance of charities supporting refugees. Look at how Christianity has spread across the world and compare similarities and differences between worship.

As ICT technicians we will:

Use databases to sort information. Begin to use email as a means of communication.

As Athletes we will: perform dances using a range of movement patterns. Develop understanding of tactics and control through Hockey.

Location, Location, Location.

As Historians we will:

Investigate why our ancestors travelled to North America and the impact of their arrival.

As Mathematicians we will:

Compare maps and graphs and extract information about weather, climate and population. Research currency and time zones.

As Musicians we will:

Compose and perform music using the pentatonic scale. Learn songs from the American tradition.

As Scientists we will:

Compare how things move on different surfaces.

Identify the effects of air resistance, water resistance and friction, on moving surfaces.

Recognise that some mechanisms including levers, pulleys and gears allow a smaller move to have a greater force.

As Authors we will:

Read Kensuke's Kingdom and write our own adventure stories, using similar techniques to Michael Morpurgo.

Read and write poetry based on the sea. Debate the plight of orang-utans and the issues of plastic waste in our oceans.

As Artists we will:

Study and compare the art work of Hokusai and Winslow Homer and use water colours to create artwork depicting the moods of the sea.

Book: Kensuke's Kingdom

Song: American Odyssey
