Accessibility Plan 2017-2018

Purpose of Plan

The purpose of this plan is to show how our Villiers High School intends, over time, to increase accessibility to the physical environment, the curriculum and written information so that all pupils with a disability can take full advantage of their education and associated opportunities.

Definition of disability

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

This definition includes people who have any of the following:

a) Physical disability
b) Sensory impairment or loss (e.g. visual, hearing)
c) Mental illness and mental health difficulties
d) Chronic illness (e.g. asthma, epilepsy, diabetes, HIV, MS, cancer)
e) Medical conditions which may cause pain or other symptoms that affect studies such as diabetes, arthritis and epilepsy
f) Learning difficulties (e.g. dyslexia, dyspraxia)
Behaviour related challenges are only included if they relate to underlying physical or mental impairment or result from a mental illness, which is well recognised, e.g. Tourette’s Syndrome, ADHD, ADD, ASD etc. This therefore includes a number of students who are, or may be on our SEN register.

A disability could therefore lead to problems in the following main areas:

a) Mobility and motor skills, manual dexterity
b) Speech, hearing or eyesight
c) Life skills
d) Memory, concentration
e) Ability to learn and understand
f) Behaviour
g) Perception of danger
h) Confidence
