

SCHOOL COUNCIL

The new school council members have settled nicely into their new role.

We have focused on our school council rules and our targets for the year:

- To invite a governor to one of our meetings.
- To continue to look after the school council garden.
- To fundraise money for the school.
- To start a lunchtime club

During our sessions we have planned ideas and activities for the lunchtime club for the rest of the year. In the Spring term the school council members are organising an art and craft club.

We have thought about how to try and improve our school's indoor play by tidying out the games cupboard to make our resources more accessible.

We also held a mini competition between our council members to create a poster/display to remind the children to put their coat on before going outside.

Finally, we have thought about a range of fundraising events that we could do throughout the year to raise money for our school.

There will be more to come from us later in the year.
