

## English

In our English lessons this term we will be looking at a range of stories from different cultures (Handa's surprise). We will be writing character descriptions and trying to become more independent when writing stories. We will be thinking about using a range of adjectives (describing words) in our writing to make it more interesting for the reader. At the end of the term we will create a fact file all about Kenya and the animals we would find there.

## Art and Design

During this term the children will be creating a safari scene using bright colours. We will also look at using the colour wheel and choosing 'hot' colours.

## Physical Education

During our P.E lessons we will be learning how to play hockey.

## Spring One

### Animals around the world

## Geography

In geography we will be learning about Kenya and comparing it to the story we are reading in our English lessons. We will be looking at how to use a map to move and using language including continent and country.

## Maths

In maths this term we will be exploring topics including shape, place value (within 50), counting in 2s, 5s, and 10 and addition and subtraction within 20.

## Science

In the spring term we will be exploring the seasons of the year during our science lessons. Children will learn the names of the various seasons and the changes that come with them.

We will work as a class to monitor the weather during this time and create a table that will enable us to work scientifically.
