

Homework Task Year 3

Date Given 1/2/19	Date Due 6/2/19
--------------------------	------------------------

What we have been doing this week

This week in English we have created our own shape poems, explored further poetry looking at the different styles such as narrative, acrostic and free verse before planning ideas and creating our own.

Our learning in maths has been identifying equivalent fractions, comparing and ordering fraction, as well as adding and subtracting fractions.

We have learnt how fossils are formed as part of our Rock learning in Science and we have labelled and learnt the definitions for parts of a volcano within our topic.

Our Deric focus this week has been a non-fiction text about volcanoes and we have continued our art sketches of The Great Wave. ****Can you please ensure your child has both indoor/outdoor named PE kit available for Monday and Thursday each week. The need for a tracksuit is now upon us, as well as trainers, to prevent the plimsolls from getting muddy. Thankyou.**
