

MAGICAL MATHS!

EDITION #4: 1.2.2019

I · II · MMXIX

Mathematics Weekly Newsletter

WELCOME!

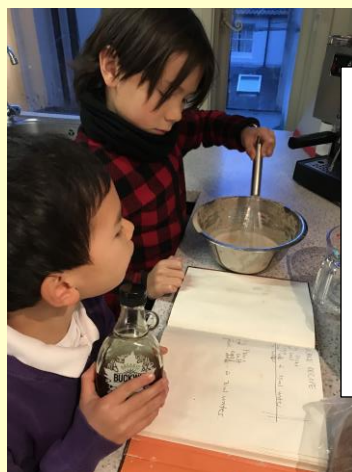

Welcome to a brand new month and the fourth of our **new** weekly Brunswick Mathematics newsletters. In these, we hope to provide children, parents and carers with practical tips, challenges and resources that will help inform, support and further inspire our love of mathematics.

Place Value Millionaire – a maths game that will test your knowledge of place value. Select one or two player options. Suitable for 9-11 year olds.

Last week's solutions!

Thank you to all our parents, who emailed a picture of their young mathematicians doing maths at home. A mathematical prize is on its way to your child.

Here is a picture of two fantastic young maths wizards, using their measuring and number skills at home to bake. No wonder they are so good at maths!

This week's Challenge

We are reissuing our very special photo challenge for our young mathematicians this week.

The challenge is to take a photo of you doing maths at home or outside of school.

Please send your photos with a brief caption to:

liambrosnan@brunswick.brighton-hove.sch.uk

if you are in KS2 or

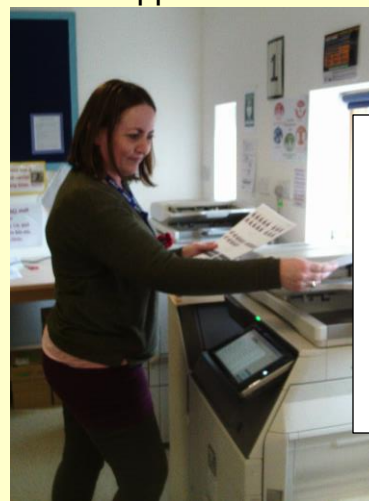

halimamoola@brunswick.brighton-hove.sch.uk

if you are in KS1

All photo entries will win a mathematical prize and photos will be displayed on our new 'Maths Is Everywhere' school display boards.

THOUGHT OF THE WEEK:

A quiz question from Miss Dearing, our admin support.

How many photocopies do you think I make a week, rounded to the nearest 100?

HINT: Teachers think it is well over a thousand.

FOR NEXT WEEK'S NEWSLETTER

Let Mr. Brosnan, Mr. Hanington or Miss Moola know the challenges you will set for your Year group. Your name will be entered to win a mathematical prize! 😊 -Mr Brosnan
