WEST EWELL PRIMARY SCHOOL & NURSERY

- One adult should stay with the child/young person to assess the severity of symptoms and in case of

- ❖ Itching
- ❖ Tingling of lips and face
- ❖ Tummy cramps
- ❖ Vomiting
- ❖ Blotchiness of skin

Give(name) (Oral Antihistamine)ml at once

In case of:

- ❖ Wheeziness
- ❖ Swelling of face and throat
- ❖ Difficulty in breathing/swallowing
- ❖ Feeling faint

Place child/young person on the floor in the recovery position (Safe Airway Position)

- ❖ Give preloaded adrenaline injection to outer thigh
(this can be administered through light clothing)

- If no breathing/pulse, initiate basic life support (CPR)
- If there is no improvement to above action within 10 minutes and there are symptoms of weakness/floppiness, pallor, then:

Repeat preloaded adrenaline injection once more if 2nd preloaded adrenaline injection is available.

- Hand over child/young person's care to Ambulance Team / parents on their arrival
- Handover preloaded adrenaline injection to ambulance staff or if this hasn't been done, safely dispose of it
- Record all medication given with date and time of administration

Awareness

The Headteacher will arrange for the staff in the setting to be briefed about his/her condition and about other arrangements contained in this document.

The setting staff will take all reasonable steps to ensure that:

..... (name) does not eat any food items unless they have been prepared/approved by his/her parents/carers.

.....(name) parents/carers will remind their child regularly of the need to refuse any food items, which might be offered to them by other children/young people.

In particular (name) parents/carers will provide the following food items for him/her.

WEST EWELL PRIMARY SCHOOL & NURSERY

Medication/Staff training

The setting will hold, under secure conditions, appropriate medication, clearly marked for use by designated staff or qualified personnel and showing an expiry date.

It is the parents' responsibility to ensure the setting has appropriate up-to-date medication.

A training session was attended by:

Name Date

Name Date

Further advice is available to setting staff at any point in the future where they feel the need for assistance. The medical training will be repeated on

If there are proposals, which mean that, he/she may leave the setting site, prior discussions will be held between the setting and his/her parents to agree appropriate provision and safe handling of his/her medication.

STAFF INDEMNITY

The County Council provides a staff indemnity for any setting staff (of those settings buying into Surrey County Council Insurance) who agreed to administer medication to a child/young person given the full agreement of the parents/carers and the setting.

AGREEMENT AND CONCLUSION

A copy of these notes will be held by the setting and the parents. A copy will be sent to the GP for information.

Any necessary revisions will be the subject of further discussions between the setting and parents/carers.
