

## English

In English, the children will be analysing the text of 'The Highway Man'. This is a poem that tells a gruelling tale of the relationship between a lady named Bess and a rogue Highway Man. The pair fall in love but many people are after the Highway Man which causes troubles for their love. The children will be writing a fiction and non-fiction piece about the shocking events that occur between the characters which we will uncover in more detail when we read it together as a class!

## Maths

This term, children will be focussing on arithmetic, as we will now do one lesson a week that solely focusses on these skills. The children will also be converting between units of measure and starting a new topic of algebra.

## RE

The unit for this term is "What does the resurrection mean to Christians?" We will be exploring different Christian ideas about what the resurrection of Christ means to them and to other religions.

## French

This term, we will be finishing the topic of Ma Famille. After this, we will be learning numbers in French which will link to the children talking about celebrations such as their birthdays.

## Computing

In computing this term, we will be focusing on Media. We will continue to embed our existing computing skills across the curriculum.

## They Made a Difference

Year 6 Term 4

Value of the Term: Truth

Learning to Learn Skill: Reflective

## PSHE

This term's PSHE focus is Healthy Me. This focuses on how to maintain a healthy lifestyle.

## Hooks and Experiences

Term 4 will bring lots of exciting experiences for the children! They will enjoy an inspirational visit from the mayor and a fun run, followed by World Book Week and Science day!

## Science

In Science, we will be looking further at electricity. Within this, we will explore the effect of adding more batteries to a circuit on the brightness of a bulb and the volume of a buzzer. The children will also investigate how switches can be used in a circuit. Finally, they will also use the scientific symbols to represent the parts of a circuit.

## Thematic Curriculum (History and Geography)

This term, we will be continuing our topic focusing on inspirational people. We will start this off by a visit from Bristol's mayor, who will talk to the children about the changes he has made in Bristol and how he came to be in this position. We hope this will inspire the children to realise they can make a difference. Additionally, Fairtrade fortnight will link into our topic and we will look in more depth about how Fairtrade impacts those around the world. We will end our topic with the children considering how they can make a difference.

## Health and Well-being (Art, Music, Sport)

In sport, the children will develop their gymnastics skills. They will also continue to develop fundamental movement skills through the use of Real PE.

In music, the children will be learning songs and music from a range of countries (from South Africa to Israel) which will lead Y6 to think how music unites and can reflect social change.

In art, the children will be learning about significant artists and creating art in their style.
