

### Maths

We have been working on finding patterns and using strategies to remember multiples. On Thursday the children carried out an investigation into the multiples of 3. I was very impressed with their reasoning skills.

### Writing

This week we have focused on slow writing - taking our time to punctuate each sentence and spell words carefully. We wrote discussion texts about whether or not we would like to live in a Masai village. The children structured their writing very well. Good work!

**FEELING  
GOOD  
WEEK 2019**

### Feeling Good Week 11th-15th Feb

Everyone had something they enjoyed in Feeling Good Week: yoga, breathing exercises, mindful colouring, listening to calming music, completing our positive diaries or our trip to the woods.

### Topic

We have spent two weeks working on our next piece of artwork - an animal silhouette. After half term we will make a collaged mosaic background.

### Science

The habitat presentations were fantastic this week! Every child stood up in front of the class and shared their homelearning.

### Coming Up...

**World Book Day** is coming up on **Thu 7th March**. Children can come to school dressed as any book/story character. It should be a really fun day!

**Have a wonderful  
half term!**
