

Term 3

Week 6

Class 2 – Weekly Update

What have we been learning about?

This week has been our STEM week. The children have participated in lots of activities that involve Science, Technology, Engineering and Maths. These have involved constructing a marble maze, a phone made from string and plastic cups, making slime, playing 'bubble tennis' and designing and making their own Tudor houses. It's been an exciting week!

In English, we have finished and edited our newspaper reports. I hope you enjoy reading these at parent's evening next term.

In Maths, we have been completing lots of challenges about everything we have learnt this term and improving our explanation skills.

The children are making excellent progress with their learning. We are feeling very proud of them! Each day they are growing into resilient learners and they always try their best to work to a high standard.

How could you help us with our learning at home?

Please continue to read with your children at home. This should include hearing them read aloud to build on their expressive reading skills as well as discussing what they have read to encourage comprehension.

Next term we will be learning about multiplication and division so it would be very helpful if you could test your child on their 2, 5 and 10 times table to help them feel more confident with these facts before we start.

Dates coming up/Things to remember:

Next term our second 'parents evening' will take place. We will let you know, following the half term break, what dates these will be on.

PE will still be on a Monday and Wednesday.

Homework

In maths, we have been learning how to create and draw graphs to show information. Over half term I would like you to collect data from at least ten people about the animal they would like as a pet and present it in a frequency table (please see sheet). I have also sent home a sheet explaining a game that helps you practice your odd and even numbers. It would be brilliant if you can play this too!

Contact:

Don't forget that we are always available should you have any questions or concerns. You can contact us through the email below. Alternatively, you can send in a note via your child to pass on.

hotwellsp@bristol-schools.uk (office email)

Have a great half term everyone!
