

Develop your creativity:

3 points

- ◆ Create a map of your local area.
- ◆ Make a 3D model of what your local area would look like from a bird's eye view.
- ◆ Create a landmarks game with significant landmarks to place on a map.
- ◆ Make a bird's eye view model/ drawing of your bedroom.
- ◆ Select a favourite toy/ object at home. Draw it from a bird's eye view and side view.

Explore your locality:

2 points

- ◆ Take your own Bird's Eye view photographs for places where you live. Use to create a photo scrapbook.

Why not Tweet us your adventures?
#PennsPrimary

This half term's POW Project is:

What Would a Bird See?

HAND IN BY: Wednesday 10th April

Choose projects to achieve at least

5 Curiosity Points

You can add your own ideas too! Tick off what you have completed to achieve your points.

Explore your mathematical skills:

2 points

- ◆ Find the distances from your house to 10 locations in your locality in km and miles:
- ◆ Order the distances that you found.
- ◆ Find the difference between the closest and furthest away.
- ◆ Calculate the total distance.
- ◆ Use an OS map of your area to create an OS quiz for others. (They should identify key places from the grid references/ co-ordinates in the game.)

Extend your research skills:

2 points

- ◆ Use Google Earth and Google Street view to explore more unfamiliar places in your locality and record what you find.
