

Nursery 3 Home/School Learning Plan

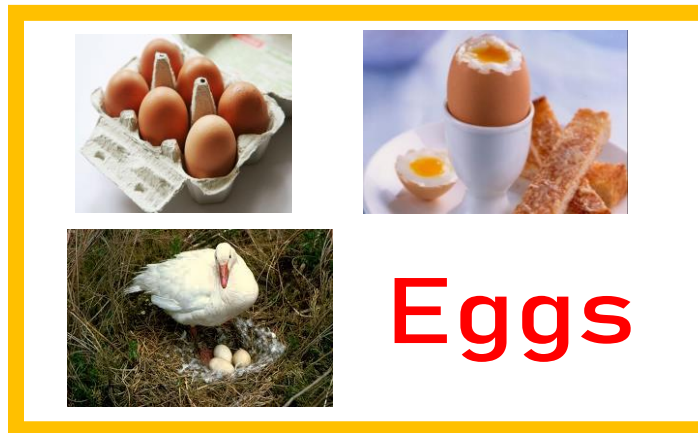

These are the things we will be learning about this Spring Half Term. Please help me at home.

We are going to have some duck eggs in Nursery. We will watch the ducklings hatch and watch them as grow.

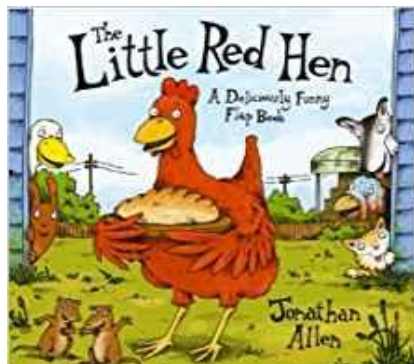

We will be learning to share toys and resources with our friends.

We will be looking at eggs and finding out what happens when we cook them.

We will be listening to stories and talking about the different places and characters in them.

We will be looking at colours and mixing paint to make different colours.

We will be counting amounts and using our fingers and marks on paper to show how many.
