

Claybrooke Primary School

Our Vision

A happy child is a successful one. We are committed to providing a positive, safe and stimulating environment for children to learn, where all are valued and have equal opportunities. We intend that all children should enjoy their learning, achieve their best and become independent life long learners. Our school will be the heart of the community, working in partnership with parents and with positive and effective links to the wider community.

Claybrooke C.A.R.E.S.

By the time they leave, we want all children to be:

C	Confident and Courteous
A	Aspirational and Aware
R	Respectful and Resilient
E	Empathetic and Excited
S	Successful and Supportive

To help us achieve this, we aim to

- Provide a happy, stimulating, caring and disciplined environment in which children enjoy learning.
- Provide a broad, balanced and relevant curriculum that challenges and inspires.
- Develop each child to reach his/her full potential - educational, personal and social.
- Encourage children to value, take pride in and respect themselves, their work and their environment.
- Create a partnership between children, staff, parents, governors and the local community so that each child can become an active and valuable member of society.
