Internet Permission

Providing access to the internet in school will raise educational standards and support the professional work of the staff.

Teachers and pupils will have access to web site world-wide (including museums and art galleries) offering educational resources, news and current events. Our 'internet' at Our Lady's is actually an internet provided by Wigan Local Authority and offers controlled access to safe internet sites.

Children using the internet will normally be working in the classroom or resource area during lesson time and will be supervised by an adult (usually the class teacher). Staff will check that the sites pre-selected for pupil use are appropriate to the age and maturity of pupils.

Staff will be particularly vigilant when pupils are undertaking their own search and will check that the children are following the agreed search plan.

Pupils will be taught to use the internet responsibly in order to reduce the risk to themselves and others.

Internet Permission

As the parent / carer of _____ I grant permission for my child to use the internet at school under supervision.

I give / do not give permission for the school to publish my child's work and / or photograph on the school's website if required. I understand that personal details will not be provided and that any photograph of my child will not be linked to his/her name.
