8<sup>th</sup> March 2019

Dear Parents/Carers

As part of our **British Science Week (beginning 18<sup>th</sup> March)**, we are very pleased to announce that Woodseats Primary School are going to be visited by **Fun Science**, a group of scientific professionals who run exciting and hands-on science workshops across the city.

Each child will have the opportunity to attend a 'Crazy Chemistry' assembly with plenty of eruptions and explosions to enthuse them about Science. On Thursday, each class from **Year 3 to Year 6** will then get stuck into their 'Human Body' workshops. These sessions focus on understanding how the body works through practical activities and demonstrations that develop their scientific understanding; children will be making poo (disgusting!), mixing mucus (gross!) and investigating how the heart and lungs function (interesting!).

We ask that you **please provide a donation of £2.00, payable through ParentPay**, to help us fund this enriching learning experience that the children will really enjoy.

Thank you for your support.
