

Term 4

Week 2

Class 2 – Weekly Update

What have we been learning about?

In English, we have been learning how to write speech correctly in preparation for writing our own stories.

In Maths, we have been learning about arrays and how they can help us work out multiplication and division sums.

In Science, we learnt about the importance of exercise, sleep and food for keeping us healthy.

How could you help us with our learning at home?

Please continue to read with your children at home. This should include hearing them read aloud to build on their expressive reading skills as well as discussing what they have read to encourage comprehension.

Please see the curriculum link letter for more ways to support your child at home.

Dates coming up/Things to remember:

Parent consultation evenings will be on 19th and 21st March.

Our trip to Bristol Zoo is Wednesday 20th March.

PE will be on a Monday and Wednesday.

Homework

Well done for writing some excellent recounts! In Science we are learning how to be healthy through exercise and the food we eat. For this homework I would like you to keep a food diary of what you eat each day or for a few days. Can you also identify some of the foods as dairy, carbohydrates, sugars, fruit and vegetables or protein?

Spellings: The new spellings for each week this term are on the Class 2 webpage and have been sent home. Please practice these at home with your child and there will be a test each week in class. Some children will have other spellings sent home.

For next week: The new rule is adding 'ies' to nouns and verbs ending in 'y'; flies, cries, copies, ladies, lorries, babies, parties.

Contact:

Don't forget that we are always available should you have any questions or concerns. You can contact us through the email below. Alternatively, you can send in a note via your child to pass on.
