

History

We will investigate the question What was the impact of George Stephenson on the North East? We will find out about who he was and how his inventions changed the lives of people and changed the landscape.

Science

We will continue to explore everyday materials and their uses. We will look at how we can change materials plus the work of scientists who have invented new materials.

Class 6

Spring 2

Enhancing Learning

As part of our history topic, we will visit Locomotion in Shildon. We will find out about the work of George Stephenson and explore trains from the past and present.

We will observe the traditional festivals of Easter and Mothering Sunday. We will find out about the traditions associated with them.

We will take part in a skipping competition.

Art

We will make observational drawings of Stephenson's Rocket and learn how to add colour including shading, blending and layering to create a 3D effect.

RE

We will be focusing on how Christians celebrate Easter and the Easter Story.

Music

Exploring Sound— Spooky Spinney & Spooky scene.

Exploring Pitch—Round the Seasons, Our Seasons.

Computing

We will continue our work on coding and using algorithms. We will work on the apps Bee Bot and Daisy The Dinosaur.

PE

Gymnastics and skipping
