

COWLEY HILL

learning for tomorrow every day

Important Changes to Home Learning

Dear Parent / Carers,

At Cowley Hill we are constantly trying to find ways to improve the learning opportunities for the children; both at home and at school. As part of this process Year 5 have been trialling a new way to approach part of our home learning.

We have introduced a new home learning grid, offering the children a degree of choice about which activities to complete and how they present their work.

Every other week, on a Friday, your child will chose an activity from the grid, to complete over the following 12 days. This will help them to be involved in selecting their new learning and give them the opportunity to experience a variety of skills and challenges across the school year. The element of choice is designed to both inspire and challenge them to develop and use a range of skills.

Normal home learning expectations will continue to run alongside the new grids including; daily reading, spellings, times table practice and online home learning such as Sam Learning.

Your child will have had an opportunity to discuss the grids in class before bringing them home.

If you have any questions please do not hesitate to talk to your child's class teacher.

Kind regards

Jon Hood
Headteacher
