HEADLICE

Reports have been received of head lice. Please can you check your child's hair and treat as necessary if head lice are found. You can do this by combing their hair with a special fine-toothed comb (detection comb). You can buy these online for from pharmacies. Treat head lice as soon as you spot them. You should check everyone in the house.

Head lice can be treated by either wet combing with the detection comb or by applying medicated lotions and sprays which can be purchased from pharmacies.

The latest guidance and useful information on head lice and treatment can be found on the NHS website link below

WATER BOTTLES

We have been asked by a number of parents about the availability of water during lessons. Currently we have cups available for those children that do not bring a water bottle in. However, we are stopping this due to concerns over the children sharing cups. As a result please could every child bring in a water bottle which will be kept in a tray in the classroom. This can be refilled during the day. We would ask that it comes home every Friday for a clean ready to come back on the Monday. The children will be able to have a drink when necessary during the day. To make lunches easier we would also like to ask that the bottle in class is not the same as the one for lunchtime that comes in with the children's packed lunch.
