

## This Week

Breaking News-Year 1 are now news reporters! They created a two minute news clip to share what they had found out about the Great Barrier Reef in Australia. At the beginning of the week children carried

out research to explore what the reef was and what sorts of things were affecting it such as coral bleaching and the Crown-of-Thorns starfish. From this information they formed a non-fiction text and put it into a script with two others on their table. I cannot wait to see the results on Monday!

In Science the class learned what herbivore, omnivore and carnivore meant. We spent some time exploring what animals ate and which category they go in to. It was discussed how humans (who are a type of animal) are omnivores but some choose not to eat meat for a variety of reasons .

Maths has been all about the days of the week and months of the year. Our friend Jack Hartman has given us a new song to help with the order.

## FYI

- Wednesday 20th Governors in School Day
- Mad March Sale- Sunday 24th March
- Woburn Trip Wednesday 2nd April

January	July
February	August
March	September
April	October
May	November
June	December

## Sequencing Game

This can be played with days of the week or months of the year. Children choose a month or day, such as Friday, then complete the statements below.

*If today is...tomorrow will be....and yesterday was...*

*If this month is....next month will be....last month was...*

### **To challenge**

*In 3 days time it will be...*

*4 months ago it was...*

## Mrs Dunk's message

What a lovely week we have had in Year 1! It was topped off yesterday by a visit from the lovely Mrs Matthews who came to see how the class were getting on. They all had lots of questions about her holidays and how she fills her day now she does 'nothing'.

Thank you for all of the shoe boxes, the children are going to create animal habitats with them next week.

See you on Monday.
