

ENGLISH

WRITING

Using Talk for Writing, the children will be completing some persuasive writing. They will be learning how to write an advert for their very own robot and a persuasive letter,.

READING

In our reading sessions the children will be focusing on the skills of inference and prediction. They will also be encouraged to summarise the text they have read using 3-5 sentences.

SPELLINGS

The children will continue to learn the spelling patterns for children in year 3 and 4.

Check out this website: <https://thespellingleague.co.uk> .

The children have access to a game where they can practise their spellings and the more they get right, the more points they will earn.

PE

This half term we will be linking our PE with our topic looking at choreographing our own robot dances, focusing on dynamics of movements. In outdoor PE we will be focusing on improving our ball handling skills both throwing and kicking.

Year 3 Spring 2 Destination Space

SCIENCE Sun and light

In this topic, the children will learn about how the sun provides light so that we can see. They will learn that light from the sun is dangerous and we need to protect our eyes from it.

The children will investigate how shadows move throughout the day – collect evidence and present it in a bar chart.

ART/ DT

In DT the children will be looking at space technology and they will design their own robot. Children will also write an instruction to explain their design.

ICT

Children will create a stop and go animation using their previous knowledge of programming.

FRENCH

In French we will be looking at the names of body parts, months of the year and learning animal names.

RE

We will be looking at Christianity and the similarities between stories from the bible featuring Jesus and comparing these to other religions

MATHS

In Maths the children will be looking at improving their knowledge of money. They will be learning about how to add and subtract coins.

Later in the half term they will move on to looking at statistics. Building on their knowledge of bar graphs, pictograms and tables.

Finally they will be looking at the perimeter of regular shapes. Building on this knowledge and applying it to word problems which they could encounter in the wider world.

GEOGRAPHY

In Geography, the children will use a range of maps to locate the countries.

These will include: world maps, country map, satellite, elevation etc.

We will also look at how planets are mapped.
