# Luxx Energy

## Functional treats for active dogs

**Globe Buddy Luxx Energy** is a premium functional dog treat developed to support energy, hydration and recovery in active dogs. The treats contain **highly digestible insect protein** from black soldier fly larvae – a novel protein source that is gentle on the stomach and suitable for dogs with sensitive digestion. Insect protein makes it a more **climate-friendly choice** for modern dog owners.

The recipe is enriched with **cranberries and functional ingredients**, which together provide a tasty reward and contribute to the dog's vitality and wellbeing.

Ideal for **training, activity and dog sports** – or as a functional reward in an active everyday life.

## Product benefits

- Insect protein
- Grain-free recipe
- Functional ingredients
- Soft semi-moist texture
- Resealable bag
- Suitable for all dogs, including active dogs

# Luxx Energy

## Functional ingredients

- **L-carnitine:** Involved in the body's energy metabolism and contributes to normal energy release.
- **Electrolytes:** Contribute to fluid balance and support normal muscle function.
- **Minerals:** Contribute to normal metabolism and overall vitality.

Together, these nutrients help support the dog's energy level and recovery in connection with activity.

## Why insect protein?

- Highly digestible and gentle on the stomach
- Novel protein – suitable for dogs with sensitive digestion
- An alternative to traditional animal protein
- Supports normal digestion
- Rich in essential nutrients
- Contributes to healthy skin and coat
- Highly palatable

## Sustainable choice

Protein from black soldier fly larvae is one of the most sustainable protein sources in pet nutrition.

### Benefits of insect protein:

- Up to 90% lower land use
- Significantly lower CO<sub>2</sub> footprint
- Very low water consumption
- Produced in a circular system, where insects convert side streams into high-quality protein

## Complementary dog food. Semi-moist snack.

### Suitable for active dogs.
