Cetacaine® Topical Anesthetic Liquid
2027 Educational Support Program Invitation

Dear Educator,

Cetylite, Inc., maker of Cetacaine® Topical Anesthetic, recognizes the importance of providing dental educational institutions with a product sample that allows adequate introductory use by faculty members and students. Cetylite's Educational Support Program welcomes all hygiene and dental schools to participate.

For a complimentary Cetacaine® Educational Package:
Please complete the following two forms:

1. Educational Sample Request
2. Participant Information

Return the completed forms to marketing@cetylite.com, or fax to "Marketing" at 856.665.5408. You may also mail them to address above, Attn: Marketing, Dental Division.

Your Educational Package will include:

- **Cetacaine® Liquid Clinical Kit, which includes 24g Cetacaine, 100 delivery syringes and tips**
- **Clinical study demonstrating the efficacy of the Cetacaine® formulation**
- **The following instructional resources:**
    - Instructional Powerpoint on clinical utilization and proper application of Cetacaine®
    - Competency rubric for evaluation of students' hands-on application technique
    - Test question bank

Upon receipt of your educational package, please complete and sign the Drug Sample Receipt form and return it to Cetylite, according to FDA regulations for Drug Samples. You may contact your Cetylite representative or Cetylite, Inc. headquarters for additional assistance and questions.

We at Cetylite wish you, the faculty and students, a successful academic year.

Respectfully,

Kathy Perini

Kathleen Perini
Dental Division Manager
