Your support is a direct investment in holiday stability. Every \$50 donation funds fresh food access and pantry shopping for a community family, ensuring a family can share a meal without fear. Please partner with us to give the gift of food security this holiday season.

Operation Fresh Start

A Holiday Lifeline for Our Community

The holiday season should be a time of warmth and gratitude. But for thousands in our school communities, it's becoming a season of impossible choices. The sudden halt of SNAP benefits is not just a headline; it's a crisis that threatens to leave tables empty for Thanksgiving and Christmas.

We project the number of households we serve to more than double—from 450 to over 900 families weekly—pushing them to choose between groceries for a holiday meal and paying December's rent. As a trusted partner in our school-centered neighborhoods, we have launched Operation Fresh Start to provide an immediate and dignified response.

Our Solution: From Crisis to Connection

Operation Fresh Start is more than an emergency response; it's a moment of transformation. We are providing an immediate lifeline through grocery coupons to our community store, FrescaZona. This model offers dignity and choice, allowing families to select the fresh, healthy food they need.

More importantly, we are using this crisis as an opportunity to connect hundreds of new families to a sustainable, neighborhood-based resource that will empower them long after this emergency has passed. Your support doesn't just solve a problem today; it builds a stronger, more food-secure community for tomorrow.

Your Partnership: A Holiday Lifeline

Your support is a direct investment in holiday stability. Every \$50 donation funds fresh food access and pantry shopping for a community family, ensuring they can share a meal without fear.

As a valued school partner, your leadership will send a powerful message of hope throughout our community. Please review the sponsorship opportunities on the reverse side and join us in giving the gift of food security this holiday season.
