Learnster

Our offering

In a world of information quantity **knowledge is quality**

In today's ever-changing business landscape, continuous skills development and a growth mindset are more important than ever. Not only to your organization, but to your employees and customers alike. To remain competitive, you need to achieve **maximum learning in minimum time.**

Learnster develops the LMS of tomorrow for growing organizations aspiring to achieve maximum learning in minimum time.

Involve subject matter experts in creating everything from micro learnings and single courses, to onboarding schemes and dynamic training programs. Share with employees, customers and partners.
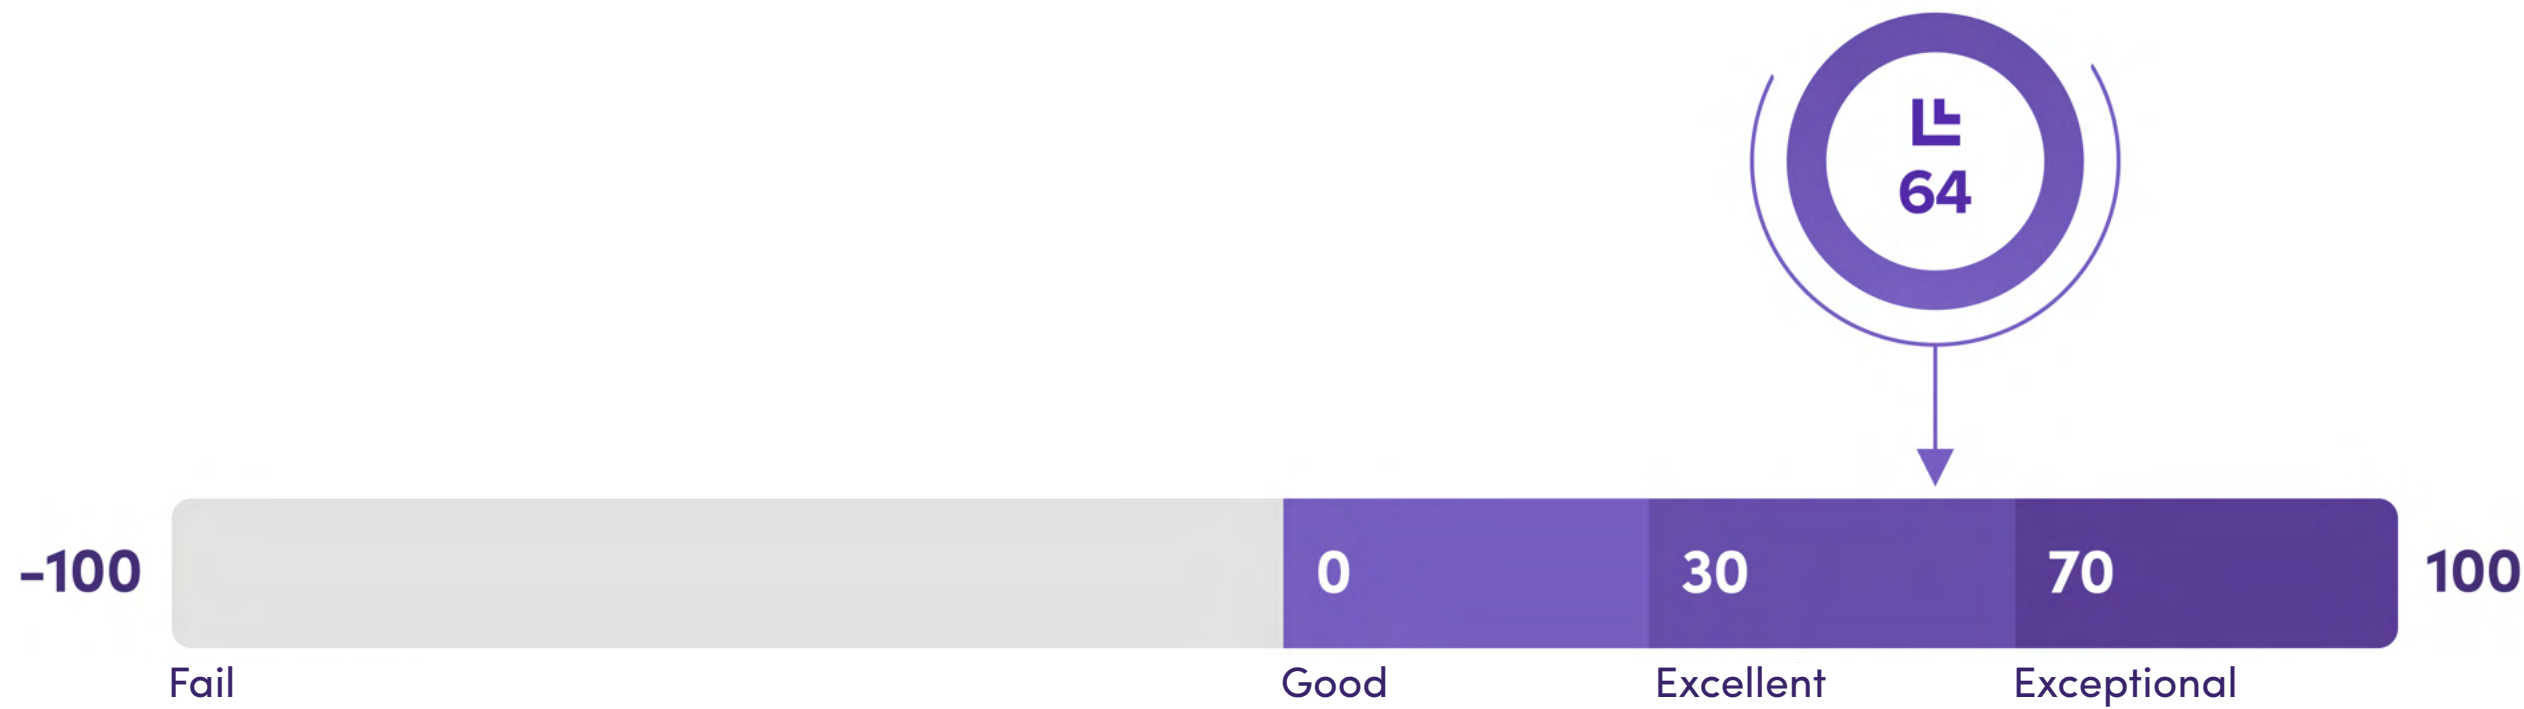

Learnster was nominated **Swedish SaaS Company of the Year** in 2020 (Breakit) and awarded **Platinum Pick** in 2021 (FindAnLMS). Today, with an NPS of 64, thousands of users across 30 countries use Learnster in 10 different languages.

NPS 64

NPS (Net Promoter Score) measures the likelihood, on a 1–10 scale, that a customer will recommend your company to someone else.

-100   0   30   70   100

1. Involve your subject matter experts

Involve the entire organization! Invite your subject matter experts to share know-how and to take ownership of relevant learning materials. Dynamic admin roles let you delegate content production on both a central and local level.

2. Create content directly in Learnster

Create content using a smooth drag-n-drop interface. Combine text, images, videos, audio files and documents for a dynamic learning experience.

Simple, intuitive drag-n-drop interface

This course gives you easy access to the invaluable learning techniques used by experts in art, music, literature, math, science, sports, and many other disciplines. We'll learn about the how the brain uses two very different learning modes and how it encapsulates ("chunks") information. We'll also cover illusions of learning, memory techniques, dealing with procrastination, and best practices shown by research to be most effective in helping you master tough subjects.
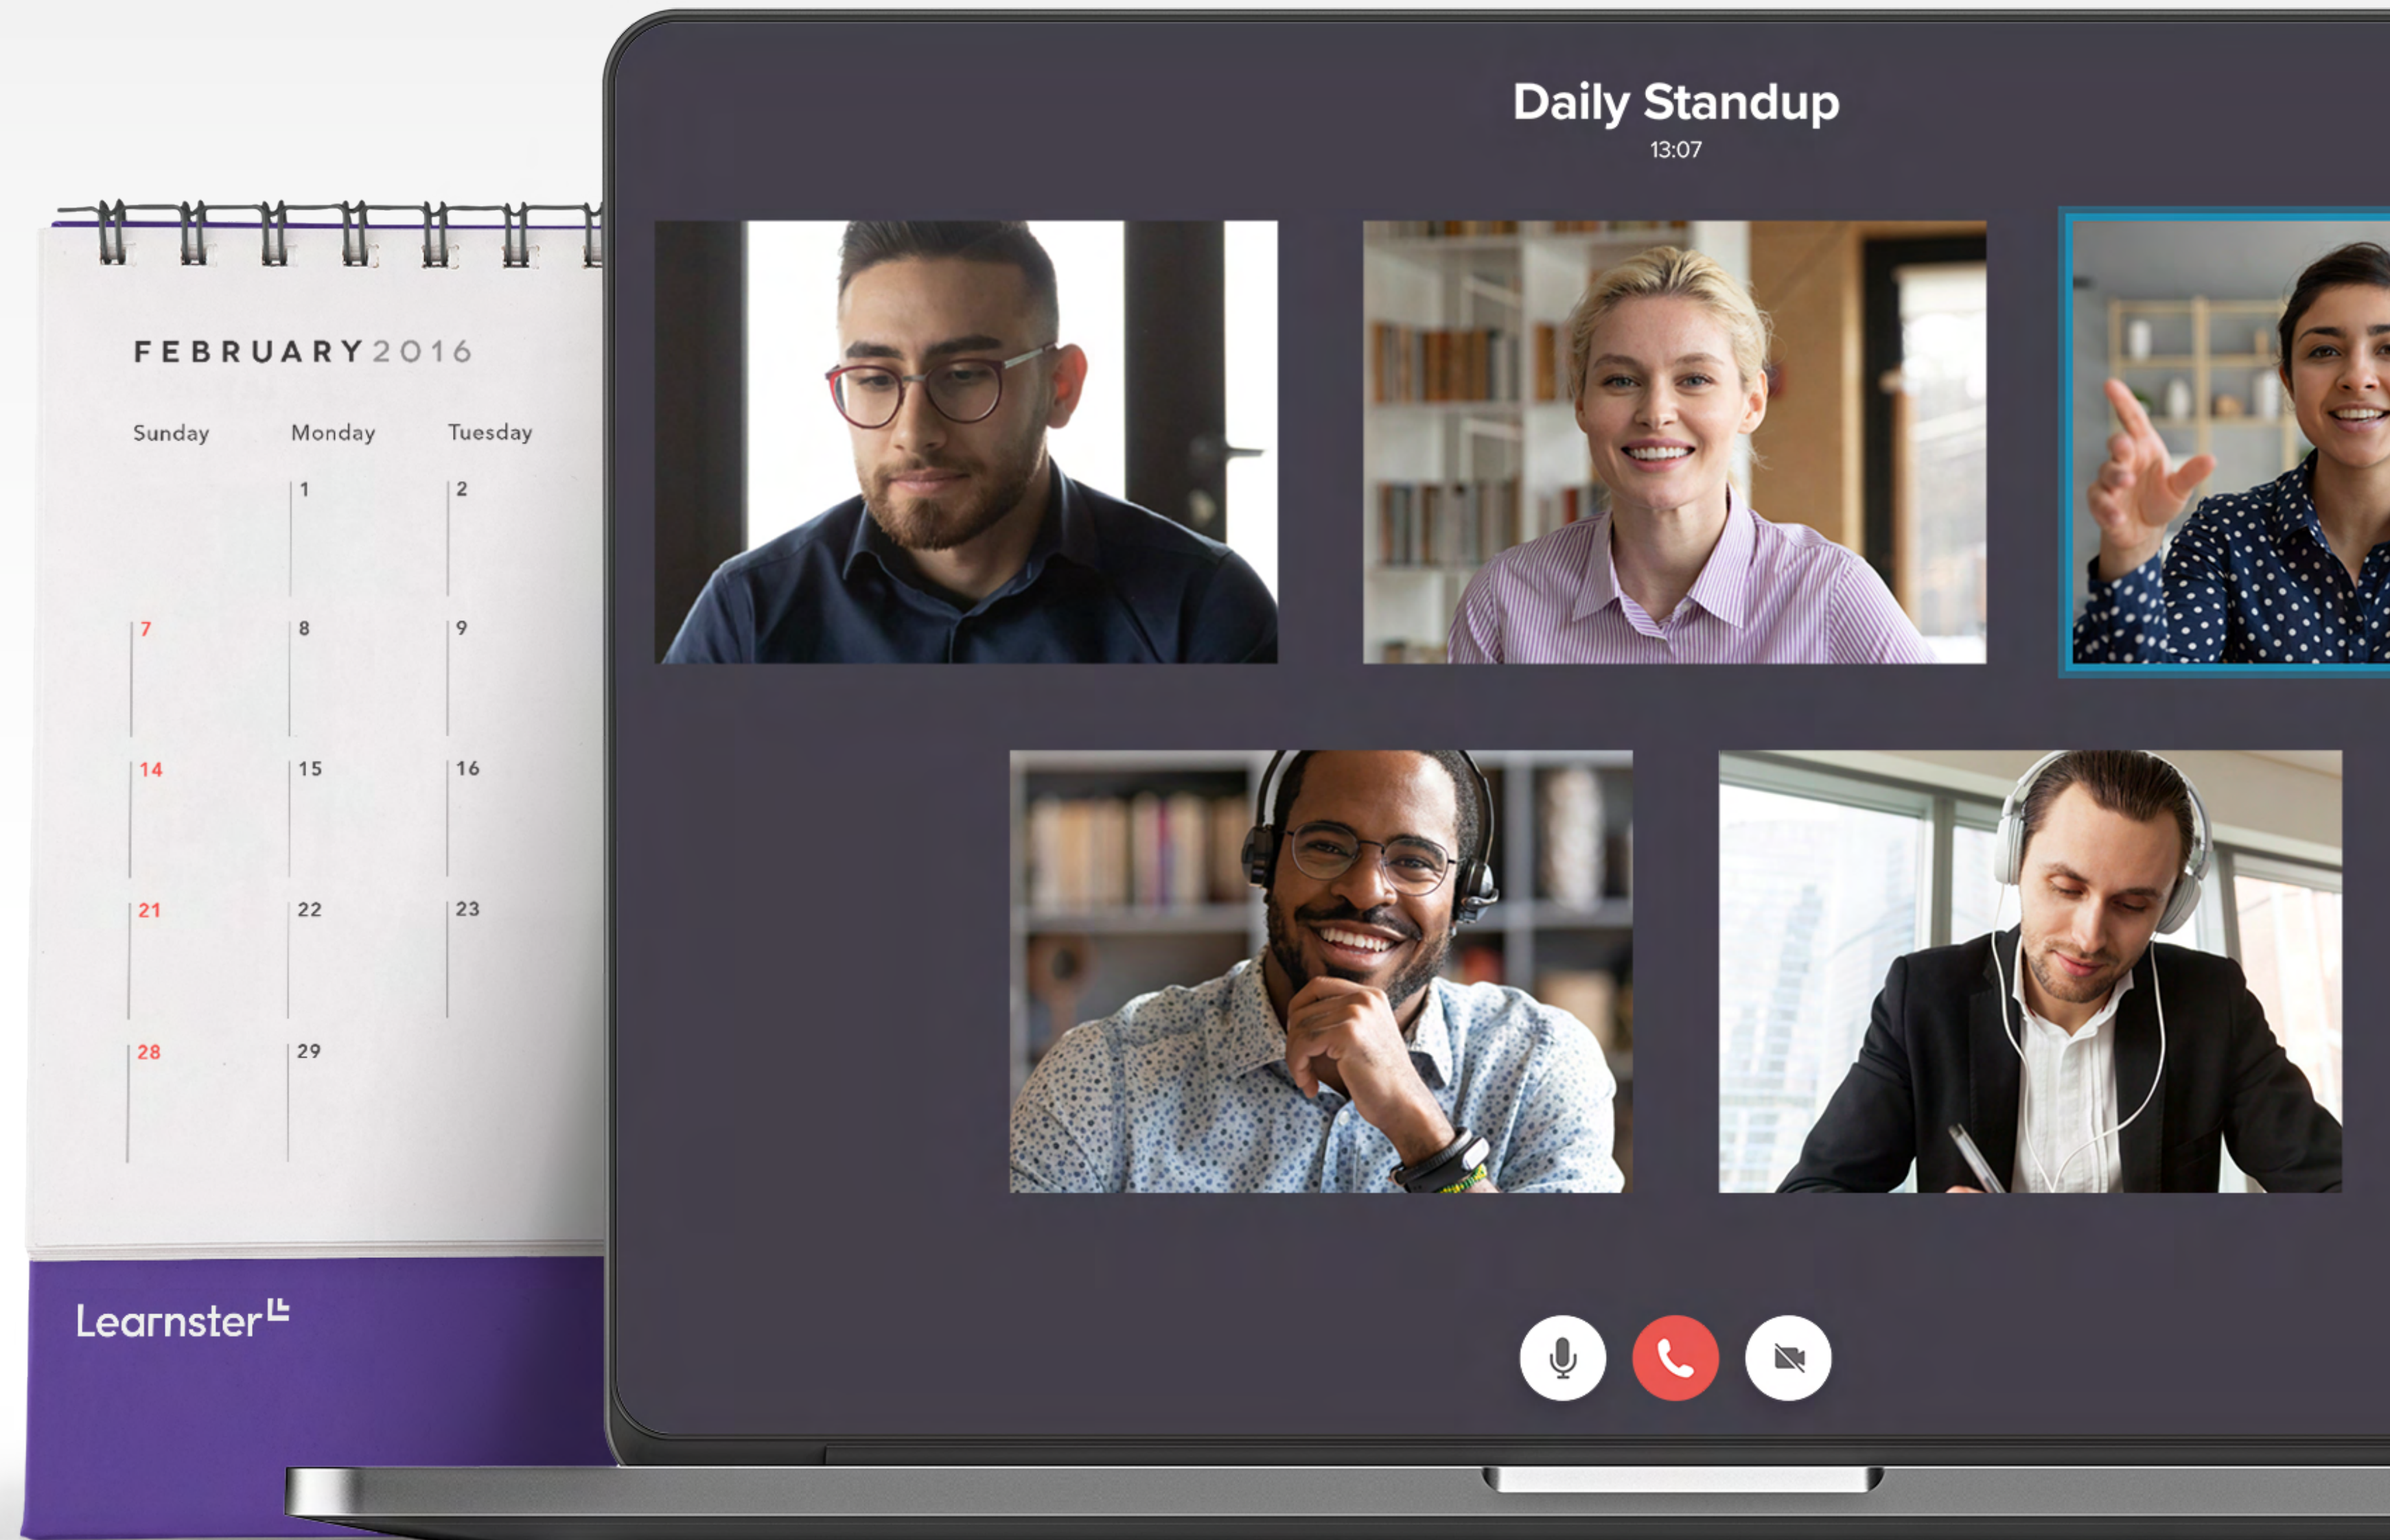

Involve create **package** share

### 3. Package for impact

Use a variety of content for a powerful and interactive learning experience. Make use of online courses, scheduled classroom sessions or blended learning environments.
