Shipping Operations Updated 8 June 2021

This monthly bulletin is compiled to give all stakeholders an overview of the current impact of COVID19 on Pacific shipping activities. It draws on sources from government, commercial and humanitarian sectors.

Overview:

Space and equipment situation remains tight for the month of June. Another round of GRI is expected. Schedule reliability remains an ongoing issue as vessels are still being delayed and blank sailings are implemented to recover schedule. 40HC shortage is still ongoing and shippers need to consider alternatives like NORs. Carriers have stopped offering for new business and no long terms rates provided due to space are "fully subscribed".
