

## Background

The Logistics Cluster facilitates the coordination of the logistics response in support of the humanitarian community in South Sudan. It also provides information management services to improve the decision making of humanitarian organisations in South Sudan. Where logistics gaps are identified, WFP, as the lead agency of the Logistics Cluster, acts as a *Provider of Last Resort* by offering common logistics services to support the humanitarian community in their response operations.

## Operational Highlights

- In October, the Logistics Cluster facilitated the transport of **360 mt** of humanitarian cargo to **51 destinations**, of which **25% was transported by river and road**. A total of **49 organisations** were supported.
- **One road convoy** was facilitated, from Juba to destinations along the Western Corridor, transporting about 160 mt of non-food items (NFIs).
- **One Mobile Storage Unit (MSU)** of 240 m<sup>2</sup> was installed in **Pochalla**. The unit will be managed as common storage space by a partner on behalf of the humanitarian community.
- The Logistics Cluster continues to support the **ongoing flood response**. Between May and October, **2,355 mt** of humanitarian cargo was transported to **76 locations in flood-affected counties**, supporting 52 partners. The additional air asset that has been added to the fleet to support affected locations from Bor will be available until January 2022.

The Logistics Cluster facilitates access to two helicopters in Bor to support the flood response.

## Coordination and Information Management

- **Three Logistics Cluster Coordination Meetings** were held in October, with a total of 29 participating organisations. Two meetings were held at the hubs in Malakal and Bentiu, and one online meeting was facilitated at the national level.
- The Logistics Cluster published **11 information management products** on the operational [website](#). The most recent version of the Physical Access Constraints map, which is updated every week, can be found [here](#).

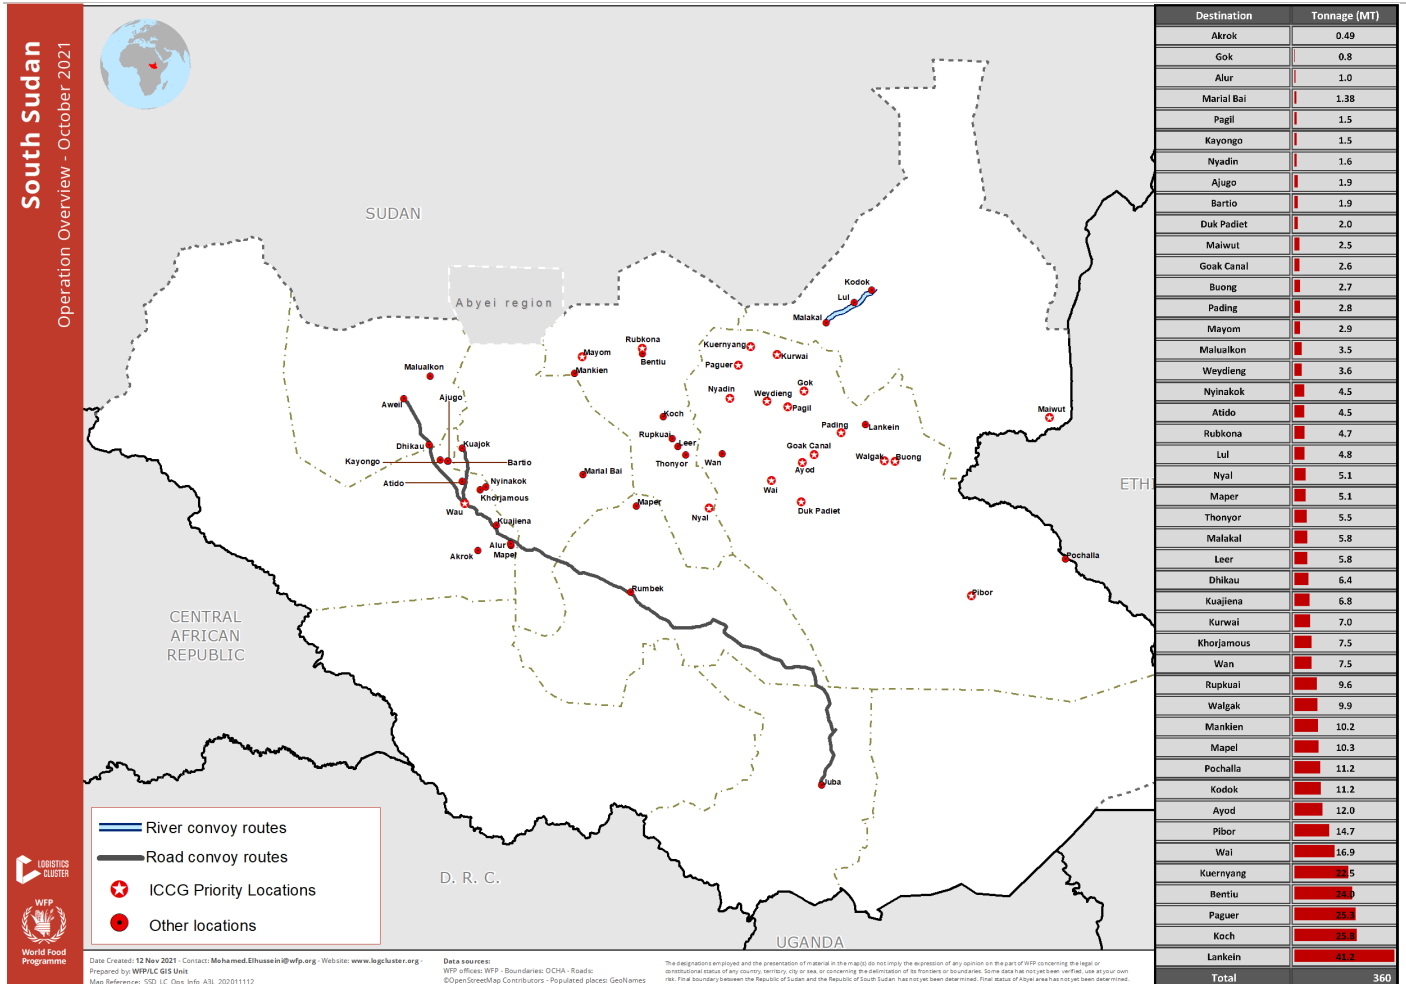

## Logistics Preparedness & COVID-19 Logistics Cluster Support

More than 10 million PPEs from the common pool have been allocated.

WFP, through the Logistics Cluster, as a co-lead of the Operational Support and Logistics Pillar of the National COVID-19 Response Plan, continues to coordinate requests for Personal Protective Equipment (PPE) from humanitarian organisations. As of 31 October 2021, 584 requests for PPEs from the common pool created by WHO, WFP and IOM have been accepted, allocating **more than 10.3 million PPEs** to be received in more than 250 locations across South Sudan.
