

UKRAINE LOGISTICS CLUSTER

PROVIDING SUPPORT

Every emergency response is different, but one common element is the desire of people around the world to give support to those affected by crisis, conflict and natural disaster. The best way to help affected communities and support relief efforts is also the most **efficient, effective** and **economical**: provide **monetary donations** to aid groups working on the ground.

Unsolicited material goods, and those without a clear and proper addressee – a.k.a “non-attributed contributions” without a specific organisation clearly identified who has agreed to take charge of the goods on arrival – **can create blockages at points of reception;** and slow down the delivery of priority relief items (i.e. those identified by the affected communities, governments and emergency response experts as the most critical and urgently needed).

If you cannot make a monetary donation and you have material goods you would like to contribute but, you have no way to identify or connect to a responding humanitarian organisation, the Ukraine Logistics Cluster* may be able to help.

*The Ukraine Logistics Cluster is a partnership of logistics professionals, working to support the humanitarian response to the conflict in Ukraine. This network is available 24/7 to provide advice, guidance and logistics services to assist you in moving your humanitarian relief forward. The Logistics Cluster is exclusively supporting relief efforts (non-for-profit) and acts in accordance with [humanitarian principals](#) (Humanity, Neutrality, Impartiality and Independence).

I WANT TO OFFER MATERIAL GOODS

TO SUPPORT REFUGEES IN NEIGHBORING COUNTRIES

Please contact the national relief agencies who are leading these efforts in each country, in coordination with [UNHCR, the UN Refugee Agency](#)

TO SUPPORT CRISIS-AFFECTED PEOPLE INSIDE UKRAINE

I HAVE IDENTIFIED an organisation willing to take charge of these goods on arrival

If you need **support with the movement of these goods**, to get them to the organisation you are working with inside Ukraine, please [check here](#) for logistics services available through the Ukraine Logistics Cluster

I NEED TO IDENTIFY an organisation willing to take charge of these goods on arrival

If you need **support identifying an organisation** to work with inside Ukraine, the Ukraine Logistics Cluster will do its best to find a partner willing and able to take your goods

The Ukraine Logistics Cluster cannot guarantee that they will be able to find an organisation to take charge of your goods on arrival, but you will be notified after 7 days if their efforts have been unsuccessful.

No material goods can be moved through the Ukraine Logistics Cluster without an organisation having already been identified who is willing and able to take charge of these goods on arrival.

For more information about the Ukraine Logistics Cluster please visit: <https://logcluster.org/ops/ukr22a>

Please send an email to: Ukraine.LogisticsCluster@wfp.org

Please provide the following details:

- . The name of your organisation
- . Your name, telephone, email
- . A description of your goods:
 - Type of item(s)
 - Specifications of item(s)
 - Quantity of item(s)
 - Type of packaging
 - Quantity of packages
 - Weight (kg) & Volume (m3)
- . Date the goods will be ready
- . Place where the goods will be ready

I WANT TO OFFER LOGISTICS SERVICES

Logistics Services as a donation: if you are able to offer logistics services at no cost to support the humanitarian response, please contact the Ukraine Logistics Cluster at: Ukraine.LogisticsCluster@wfp.org

Services at-cost: if you are interested to provide services to responding organisations at cost, you can find useful references in the [United Nations Business Guide](#) and at the [UN Global Marketplace](#).
