LOCATION  Lviv, Ukraine (online/dial-in access available)

DATE  25 May 2022

CHAIR  Ukraine Logistics Cluster

ACTION POINTS  
- The Logistics Cluster to update partners on fuel provision processes as available.
- The Logistics Cluster to advocate via OCHA on possible solutions for reported border congestions outgoing from Ukraine.

AGENDA  
1. Fuel update
2. Update on border crossing points
3. Situation update
4. AOB

1. Fuel update

- Preliminary survey results on organisational fuel requirements were presented (based on inputs from 29 partners). The survey showed fuel needs are greatest in the country’s eastern areas. Light vehicles are reported to be the most heavily impacted. Survey data will be utilized in support of operational planning and to determine estimates needed for overall fuel requirements of the humanitarian community.
- Shortages in fuel availability continue across the country, impacting the operational capacity of responding organisations. WFP is discussing with international fuel suppliers on potential options for sourcing fuel to cover WFP and partner requirements.
- Challenges were discussed in relation to the importation of fuel, particularly in larger quantities. It was mentioned fuel tanks and containers both require specific certification and approvals.
- Securing adequate and certified storage spaces for fuel within Ukraine also remains a key challenge.
- WFP reminded partners that UNHCR has existing agreements with fuel suppliers, which UN agencies can leverage. WFP has placed two orders with the supplier – one for fuel cards, and one for buying
fuel, with lead times on order approvals sitting at around one week. Partners to contact ukraine.logisticscluster@wfp.org for further information.

- Given the dynamic operational environment, planning remains ongoing. Further updates will be provided on fuel, as it becomes available.

2. Update on border crossing points

- WFP provided an update on border crossings for the movement of cargo in and out of Poland noting that while congestion appears to be easing on movements into Ukraine, there are reports of longer wait times outgoing from Ukraine. Partners can find information on waiting times here. Partners also provided updates on significant congestion at border crossings in and out of Romania.
- It was mentioned that additional border crossings are planned between Ukraine and Romania. The Logistics Cluster will follow-up on the status and road tonnage capacities for the two crossings.
- Transporters continue to report fuel, competition in market, and other factors, putting upward pressure on prices. Organisations with updates are encouraged to reach out to Ukraine.logisticscluster@wfp.org for further information.
- The Logistics Cluster to advocate via OCHA on possible solutions for reported border congestions outgoing from Ukraine, working together with humanitarian partners to monitor, assess and obtain up-to-date information on the situation. Regular presentations will also be provided during the weekly coordination meetings.

3. Situation update

COORDINATION AND INFORMATION MANAGEMENT

- The first Logistics Cluster Coordination Meeting in Dnipro took place on Friday 20 May. Meetings will take place every two weeks. Based on partner feedback, the next meeting will also include online dial-in links and will take place on 3 June. An invite will be sent via the mailing list.
- The Logistics Cluster has launched a pilot warehouse survey as part of its Logistics Information Exchange (Log:IE) platform. This survey aims to collect information on current storage capacities for humanitarian organisations responding to the Ukraine crisis, to help strengthen operational coordination between agencies and reduce duplication of effort. A total of 11 humanitarian organisations have submitted information on 26 warehouses.
- The next Medical Logistics Working Group (MLWG) meeting will take place on Monday 30 May. Partners can reach out to Ukraine.logisticscluster@wfp.org to be added to the mailing list.
- The Gaps and Needs Analysis (GNA) exercise has commenced. The initiative will help shape the Logistics Cluster strategy in Ukraine, as well as services to be made available.
COMMON SERVICES

- The Logistics Cluster will be facilitating access to a new warehouse in Dnipro next week (capacity 4,500 m²). The warehouse will have open space for stackable goods.
- The latest Concept of Operations (ConOps) document can be found [here](https://logcluster.org/ops/ukr22a). Partners are reminded that this is a live document and activities will be adapted and revised as the situation unfolds and further assessment results become available.

5. Any Other Business (AOB)

- Partners asked about the possibility of extending shuttle services for humanitarian personnel between destinations within Ukraine. The Logistics Cluster to follow up with OCHA.
- General Logistics Cluster coordination meetings for the Ukraine response will now take place every two weeks. In alternate weeks, a coordination meeting will take place specifically related to operations out of Dnipro.
- Partners are encouraged to reach out to the Logistics Cluster Support Team on current challenges, as well as to propose topics and potential presentations for coordination meetings. For further information on this or Logistics Cluster activities please contact [ukraine.logisticscluster@wfp.org](mailto:ukraine.logisticscluster@wfp.org).

_The next Logistics Cluster Coordination Meeting will take place on Wednesday 8 June_
