LOCATION: Dnipro, Ukraine  
DATE: 29 June 2022  
CHAIR: Logistics Cluster  
PARTICIPANTS: Ärzte der Welt, HI-Atlas Logistique, International Medical Corps, Norwegian Refugee Council (NRC), Solidarités International, UK-Med, United Nations Office for the Coordination of Humanitarian Affairs (OCHA), World Health Organization (WHO)

**ACTION POINTS**

- The Logistics Cluster to update on fuel information.  
- Partners are asked to share their incoming pipelines with the Logistics Cluster to support operational planning.  
- Partners are encouraged to reach out to the Logistics Cluster on current challenges, as well as to propose topics and potential presentations for coordination meetings.

**AGENDA**

1. Logistics Cluster Operations Updates  
2. Fuel Update  
3. Information Exchange  
4. AOB

---

**1. Logistics Cluster Operations Updates**

**COORDINATION AND INFORMATION MANAGEMENT**

- Dnipro Logistics Cluster coordination meetings will take place every two weeks (Wednesdays). The next meeting will take place on 13 July. An invite will be sent via the mailing list.  
- Partners are reminded to submit Service Request Forms (SRFs) **at least 72 hours in advance** to the following email: Ukraine.clustercargo@wfp.org. An overview on how to submit an SRF can be found [here](#).  
- The latest Concept of Operations (ConOps) document can be found [here](#). It was reiterated that this is a live document and activities will be adapted and revised as the situation unfolds and further assessment results become available.

**COMMON SERVICES**

- The Logistics Cluster provided an operational update for the Dnipro hub:  
  - To date, the Logistics Cluster provided common services for 30 organisations, with a total amount of 6,757 m3 cargo handled in Dnipro.  
  - 3,173 m3 of cargo has been received so far in Dnipro warehouse, of which the dispatched cargo is 1387 m3.  
  - The Logistics Cluster facilitates access to a warehouse in Dnipro with a capacity of 4,500 m2.

[https://logcluster.org/ops/ukr22a](https://logcluster.org/ops/ukr22a)
The Logistics Cluster facilitated cargo consolidation and access to a dedicated fleet of 12 trucks on behalf of seven partners for the sixth inter-agency humanitarian convoy to Sloviansk and Kramatorsk on 20 June.

These inter-agency convoys are coordinated by OCHA and as such, information about new convoys will be shared through them. Partners interested to participate in inter-agency convoys should contact for more information: ukraine.logisticscluster@wfp.org

2. Fuel Update

- WFP provided an update on fuel shortages, noting that fuel prices have increased significantly since the beginning of May due to attacks on the fuel infrastructure and challenges in relation to fuel importation. However, the prices have been relatively stable in these past 1.5 months, albeit high.
- WFP is working with both national and international suppliers to meet the organisation’s fuel needs, as well as those outlined by the humanitarian community. Fuel is planned to be stored in empty fuelling stations from the local suppliers in the three humanitarian hubs (Dnipro, Kyiv, Kropyvnytskyi).
- It is anticipated that fuel provision will be implemented on a cost-recovery basis via WFP. To access the service, humanitarian organisations will be required to sign a Service Level Agreement (SLA).
- To support in establishing effective fuel supply chain pipelines, WFP encourages partners to reach out on their plans to use bilateral service provision. Humanitarian organisations requiring less than 1,000 L per month are recommended to procure the fuel commercially. Given the dynamic operational environment, planning remains ongoing. Further updates will be provided on fuel as it becomes available.

3. Information Exchange

- The Logistics Cluster provided an overview of humanitarian storage capacity. Information has been collected through a pilot warehouse survey launched as part of the Logistics Information Exchange (Log:IE) platform. The survey collects information on current storage capacities of humanitarian organisations responding to the Ukraine crisis, and complements efforts related to the ongoing Gaps and Needs Analysis (GNA) exercise. According to the survey, a total 24 humanitarian partners have reported on 63 warehouses.
  To support operational planning the Logistics Cluster asked partners to submit incoming pipelines. If needed, the Logistics Cluster can provide a template. For more information, please contact Ukraine.logisticscluster@wfp.org.

4. AOB

- Partners noted remaining challenges in relation to limited transport capacity to hard-to-reach areas, therefore, expressed interest to use Logistics Cluster-facilitated transportation services to reach the

https://logcluster.org/ops/ukr22a
hard-to-reach areas. It was mentioned that hard-to-reach areas are accessible only through inter-agency convoys.

- HI-Atlas Logistique is offering temperature-controlled storage in Dnipro (15-25 degrees Celsius) and are planning to provide cold chain storage for specific items such as vaccines.
- Partners expressed their interest to view the results of Gaps and Needs Analysis when it is completed. The Logistics Cluster will discuss the findings of the GNA in one of the upcoming coordination meetings.
- Partners are encouraged to reach out to the Logistics Cluster on current challenges, as well as to propose topics and potential presentations for coordination meetings. For further information on this or Logistics Cluster activities please contact: ukraine.logisticscluster@wfp.org.

The next Logistics Cluster Coordination Meeting in Dnipro will take place on Wednesday 13 July at 16:00.
