LOCATION
Bor, WFP Meeting Room

DATE
14 July 2022

CHAIR
Logistics Cluster

PARTICIPANTS
Christian Mission for Development (CMD), Food and Agriculture Organization (FAO), International Organization for Migration (IOM), Norwegian Refugee Council (NRC), TEARFUND, United Nations Office for the Coordination of Humanitarian Affairs (UNOCHA).

ACTION POINTS
• Guidelines for river transport will be shared through the mailing list in the coming two weeks.
• Organisations to submit requests for river transport by 25 July, and to join the next planned river movement departing Bor by end of July.

AGENDA
1. Operational Updates
2. ICCG Priority Locations
3. River Operation- new co-financing modality.
4. Partner - Logistics Gaps and Challenges
5. AOB/discussion

1. Operational Updates

• The Logistics Cluster continues to facilitate air deliveries from Bor Hub using one MI8 Helicopter, and ad-hoc flights using a fixed-wing Buffalo to enhance airlift capacity. Air deliveries are strictly reserved for locations not reachable by road or river, for rapid response missions and extreme life-saving priorities. It was emphasised that organisations need to support the effective use of resources by submitting requests of air cargo transport for only the most essential & immediately required cargo.

• Organisations were briefed on aviation safety guidelines over the coming rainy season and on the important role of airfield focal points in providing accurate and reliable updates for weather, security, and airstrip condition for daily planned flights.

• Briefing about completed river movement from Bor in June and early July:
  o In June, the Logistics Cluster facilitated the river movement of one convoy with two boats to locations along the Sobat river and Akobo east, on behalf of three organisations.
  o In early July, one barge movement was facilitated to deliver over 370 m3 of regular relief cargo in addition to large and special cargo such as light vehicles, tractors, accommodation prefabs,
and heavy-duty industrial water pumps on behalf of five organisations to support program activities in Adok in Unity state, Fangak in Jonglei state, Malakal and Renk in Upper Nile.

- Organisations were advised to submit requests for river transportation by 25 July the latest to join the next planned river movement departing Bor by end of July. Participants were also informed to regularly check the weekly update under the transport plan on Logistics Cluster South Sudan website: https://logcluster.org/ops/ssd11a
- A fleet of three trucks is available to support Common Transport Services (CTS). A prior notice of 24 hours is required for any transport request. The trucks will only support cargo movement within Bor town and surrounding areas.
- Storage space is available for common storage services, and organisations can contact the Logistics Cluster team in Bor if they plan to preposition cargo in Bor for the ongoing humanitarian response in the state.

2. ICCG Priority Locations

- Priority locations are identified by the Inter Cluster Coordination Group at the national level, and all requests to prioritise a location should be made to the relevant cluster.
- A recently updated list of priority locations for July was shared with participants with all transport modalities.

3. River Operation - new co-financing modality

- Organisations were informed that the Logistics Cluster is expected to receive supplementary funding from the Ukraine response. These funds are earmarked to support a significant portion of the river transport operations which are currently being offered on a full cost recovery basis. This funding will supplement the costs for river movements as follows:
  - for international NGOs and UN Agencies, the Logistics Cluster will cover approved river transport requests through WFP’s Bilateral Service Provision on a cost-shared basis (50%) of the total service cost.
  - For national NGOs, the Logistics Cluster will cover all associated river transportation costs, determined on a case-by-case basis. The Logistics Cluster reserves the right to verify the source of supplies if very large-scale requests are received.
- The river transport service is still under WFP Bilateral Service Provision (BSP) with co-financing (cost sharing) modality and the Logistics Cluster will continue to offer the same support and coordination for the service.
- Guidelines for river transport will be shared through the mailing list in the coming two weeks.

https://logcluster.org/ops/ssd11a
4. Partner - Logistics Gaps and Challenges

- As contingency planning in case of floods, the sub-national Wash Cluster requested river transport service or delivery of Wash materials from Malakal Wash pipeline warehouses for prepositioning in New Fangak and Canal in Pigi county. The Logistics Cluster will facilitate this delivery of Wash materials through river transport.

- The Wash Cluster in Bor is looking to identify partners in Ayod county for the planned response in this area. The Wash Cluster coordinator also briefed about planned and ongoing Wash responses in Twic East, West Akobo.

- Partners discussed challenges with late arrival of materials from the Food Security and Livelihood Cluster, and they are still considering using the road to deliver materials to locations in Uror county.

5. AOB/Discussion

- Participants were reminded to use the following email address for IOM’s Common Transport Services truck requests and/or any other direct queries to the Logistics Cluster team in Bor: CO_SSD_BorLogCluster_User_List@wfp.org

- One Ponton is available in Bor to support river movement for short distance deliveries. The service is available on a full cost recovery basis through the following contact details: Nyoma Gismala N.GISMALA@forafrika.org; Leader Kwami Makumator L.Makumator@forafrika.org

The next coordination meeting will take place online on Thursday, 10 of August 2022 at 11:00 am in WFP Meeting Room.
