1. Previous Action Points:

- Partners expressed concerns over administrative delays with the Ministry of Foreign Affairs’ (MOFA) issuance of tax exemption certificates needed to import commodities. Partners communicated that different organizations are resorting to different engagement strategies with various ministries to shorten the lead times.
- Ongoing. The UN OMT has taken up Customs standardization and streamlining, and initial drafts are being prepared. Member UN organizations have been asked to share internal SOPs for sector-specific customs procedures for review and consolidation. Any partners interested in sharing information on customs procedures for joint discussion and consolidation should contact LWG.
2. Presentation on Medical Quality Control Exemption Letter

The following points were updated:

- The exemption is acquired and shared with NGOs.
- Efforts are made to shorten the process.
- NGOs can release the import by a guaranty letter.

3. Border Status Update and Custom Issue

- Call for additional Border Crossing Points (BCPs): Partners are encouraged to share with the LWG additional BCPs of concern if relevant to their operations. The LWG will investigate ways to monitor these BCPs and add them to the weekly monitoring table.

4. HI (ATLAS) Presentation

HI (ATLAS) presented their services on transportation and storage in the west region of the country, to the partners as follows:

- HI (ATLAS) provides Humanitarian Logistics Services for NGOs/INGOs free of charge.

https://logcluster.org/countries/AFG
HI (ATLAS) storage hub in Herat has 600 m² capacity; of which 200 m² is temperature controlled and 400 m² is normal storage. Storage services are provided for ten weeks at maximum.

HI (ATLAS) Humanitarian Transportation covers four provinces: Herat, Badghis, Ghor, and Farah.

On 11 January 2023, Atlas launched a survey to understand the main challenges in the storage and transportation of humanitarian goods and to assess the need for logistic support in other regions. 19 respondents participated in the survey: 7 from NNGOs and 12 from INGOs.

Some key results from the survey:
- 93% (13 out of 14 responses) responded on lack of storage as the main challenge.
- 94% (15 out of 16 responses) responded that poor road conditions as the main challenge for Transportation.
- 50% of the participants voted for Need for Storage Facility in Bamyan Province, and 50% voted for Need for Storage Facility in Kunduz Province.
- 68% (13 out of 19 responses) voted for the need for Warehouse at Kabul Airport.
- 63% (12 out of 19 responses) voted yes for the last-mile Transport.

Action Points for HI (ATLAS):
- Study the feasibility of set-up a storage platform in Bamiyan or Kunduz and the Kabul Airport.
- HI ATLAS has already approached the airport authority and the customs department to understand all the required formalities and procedures to open a warehouse.
- If all the conditions are positive, HI ATLAS will develop a proposal.

5. Presentation on UNHRD

Walid Ibrahim from UNHRD presented the following points/information on UNHRD services:
- UNHRD provides storage and cargo consolidation services in Dubai for partners in Afghanistan. (UNHRD has been providing such services for over a decade now).
- Besides normal storage, the facility has temperature-controlled storage.
- Storage will be provided for “Passthrough” cargo only, and long-term storage is not provided.
- The typical procedure would be:
  - partner will request such service by e-providing information on the cargo through UNHRD online site.
  - partner will put the UNHRD storage location as their delivery point for their purchased goods.
  - UNHRD will provide storage and look at various options – commercial or chartered flights – to deliver the cargo to Afghanistan by consolidating various cargo from different partners.

https://logcluster.org/countries/AFG
UNHRD does not process custom clearance on behalf of the partner.

- The storage facility is free of charge, but outbound operation costs plus 7% cost recovery will be charged to the partner.

**Action Points:**
- Partners who wish to receive such services should sign up on the UNHRD website.
- LWG should conduct a survey to measure the demand for UNHRD services.

8. Discussion on the Logistic Impacts of the Ban on National women NGO and INGO workers

Action points from the Ad Hoc HCT/UNCT Meeting on 31 December 2022 and Ad Hoc ICCT were shared and discussed including: OCHA and ACBAR key advocacy messages to the DFA; ICCT and RHT actions on humanitarian organization’s internal review and impact monitoring; clarification on the three-week Operational Pause; and the continuation of salaries & benefits for female staff.

The LWG assessed the impact of the DFA decree banning female aid staff from working for NGOs on partner logistic operations. Discussions were held on partner reliance on the commercial logistics sector; dependence on humanitarian logistics support organizations; partner internal organizational logistics staffing across procurement, warehousing, transportation, contracting and partner contingency planning.

Partners raised no major concerns; however, it was agreed that the LWG would continue to monitor closely for unanticipated gaps and secondary effects of reduced commercial or humanitarian logistics capacity resultant of potential widening of decree enforcement, stronger restrictions on female staffing, or larger changes to humanitarian response programming.

The reporting of any logistics impediments due to the decree was emphasized and all partners were encouraged to report any potential issues to the LWG, OCHA, and the Humanitarian Access Group.

9. AOB

- Any partners who would like to request dedicated time to present their specific logistics challenges in next LWG Coordination Meeting can please contact the LWG Team.
- The next Logistic Working Group coordination meeting – March 2023, date to be confirmed and announced by LWG.
